In 2006, the District contracted with Centerlogic to support our admin, CAD, phone and radio networks that our District Technical Manager at the time did not have the knowledge to do.

In year 2017-2018, the District upgraded our CAD system which required more support from Centerlogic.

In year 2018-2019, the District entered into a Comprehensive Fully Managed Services agreement which costs \$2,012/monthly.

In year 2019-2020, Nathan was hired and we were able to cancel the service agreement. We only were relying of Centerlogic for some systems back-ups and antivirus protection.

In year 2021-2022, the District discontinued all services with Centerlogic.
