

# Columbia 9 · 1 · 1 Communications District

P.O. Box 998  
St. Helens, OR 97051

## *Request for Board Approval*

### ***Motorola Solutions, CPE Replacement***

Request for the Board of Directors to authorize District staff to sign an agreement with Motorola Solutions to pay for a single VESTA Emergency Call Handling - Customer Premise Equipment (CPE) workstation as part of a total replacement of all 5 of the operations centers call handling equipment project that is funded by the Oregon Department of Emergency Management – 9-1-1 Program.

Contained in this request is a copy of the original quote provided by Motorola Solution for the entire 5 workstation replacement project as well as the Not To Exceed (NTE) funding approval provided by Oregon Emergency Management.

**Background** – The Columbia 9-1-1 Communications District operates specialized equipment to receive 9-1-1 telephone calls from the public. This Customer Premise Equipment (CPE) is the end portion of the State of Oregon Emergency Communications infrastructure that is in part, paid for by the State imposed 9-1-1 tax that is assessed to every electronic device that is capable to call 9-1-1.

During the 2017/18 fiscal year, the State of Oregon enacted cost saving measures to help maintain the 9-1-1 reserve fund that has been depleted and risked becoming insolvent. Some of these cost saving measures included the State de-funding portions of equipment and services that the State had historically paid for and as a result cost-shifted these expenses back to the 9-1-1 centers to pay for themselves.

As a result, Columbia 9-1-1 is responsible for paying for one of our five CPE workstations as well as the ongoing maintenance of this same workstation and services. In addition, C911 is now responsible for funding the electronic data collection and reporting software (Analytics).

- The State of Oregon has approved the purchase of 4 positions - \$335,100.03.
- The current price for all 5 positions is \$356,104.62.
- This leaves a difference of **\$21,004.59** for the 5<sup>th</sup> workstation.
- Analytics - **\$18,983.66**

- Total Request - \$39,988.25
  - 10% contingency - \$43,987.75
-

*All funds requested for this project are budgeted for within FY22/23 and were anticipated during the budget build.*

**Summary Information:**

**Motorola Solutions**  
**500 West Monroe Chicago, IL 60661**

**Bid / Quote \$39,988.25**

**Request Authorization NOT TO EXCEED - \$43,987.75**

---

Good morning, Mike

In conversation with my team, it sounds as though you are still considering submission of a variance request for a 5<sup>th</sup> eligible workstation. I do understand your call metrics do not support eligibility for the extra position at this time, however; if you would like to work through that process, we can take another at other look at potential justification/need from a staffing or utilization perspective demonstrating that need.

So, based on the materials provided to our program to this point, you will find your not to exceed (NTE) funding approval that will support the replacement of your current phone systems. Your NTE updated total is \$356,789.89 over the five (5) year service period. Vesta Map Local was listed as optional products/services in the quote provided, as such, we've included your four eligible positions with Vesta Map Local. If you chose to not exercise that purchase, nothing additional needs to be done as we would expect any future payment authorization forms submitted to our office to come in lower than the total issued NTE.

Quote MSI3593245B

	<b>Proposed</b>	<b>NTE</b>
<b>Columbia County</b>	Five (5) workstations	Four (4) workstations
Vesta 9-1-1	\$132,749.70	\$120,777.07
Vesta 9-1-1 IP Phones	\$2,270.88	\$2,270.88
Vesta Map Local	\$24,560.26	\$21,689.86
Managed Services	\$59,428.33	\$53,821.19
Extended Warranties	\$12,701.72	\$12,701.72
Vesta Services	\$148,953.99	\$145,529.17
<b>Total</b>	<b>\$380,664.88</b>	<b>\$356,789.89</b>
1st Year PAF		\$302,789.89
2nd Year PAF		\$13,500
3rd Year PAF		\$13,500
4th Year PAF		\$13,500
5th Year PAF		\$13,500
		<b>\$356,789.89</b>

For payment/reimbursement terms, we can prepay up to one year (12 calendar months) with each subsequent year billed in 12 month increments annually thereafter for onsite support cost elements.

- Day Wireless Technician and Hardware support quoted on a 60-month term will be invoiced annually at 1/5th total cost. The annual support for years 2-5 will be  $\$67,500.00/5 = \$13,500.00$
- Purchase is supported under HGAC national buy program
- Pricing follows HGAC contract terms and conditions

As you work toward establishing your purchase contract, please keep us updated to ensure we are aware of all payment and service-related terms and conditions. This will help us better ensure timely reimbursement or direct vendor payments.

Once you have the final contract documents and invoice, you will submit to 9-1-1 Billing. [911.billing@oem.oregon.gov](mailto:911.billing@oem.oregon.gov)

If you have any questions, please do let us know.

Thanks,  
Frank

RE: Proposal for VESTA Emergency Call Handling System

Dear Mr. Fletcher,

Motorola Solutions, Inc. (Motorola Solutions) appreciates the opportunity to provide Columbia 911 Communications District ("Customer") quality communications equipment and services. Motorola Solutions project team has taken great care to propose a solution to address your needs and provide exceptional value.

Motorola Solutions is pleased to provide you a proposal for a 5 answering position VESTA Emergency Call Handling customer premise-based system. The proposal includes a total of five years of support. As the incumbent solution provider Motorola Solutions is excited to assist Columbia 911 Dispatch Center with this endeavor. This response package consists of all the requirements specifically outlined in our onsite conversations, along with optional features.

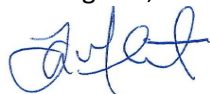

Motorola Solutions' VESTA® 9-1-1 solution is tackling some of the toughest dilemmas by pioneering the consolidation of Next-Generation 9-1-1 call handling into an integrated solution to simplify your operations. Motorola Solutions' NG911 architecture provides a robust, cost-effective system with implementation, maintenance and support that is exceptional in the industry.

This proposal is subject to the Houston-Galveston Area Council ("H-GAC") agreement entered into between Motorola Solutions and H-GAC dated January 29, 2021, EC07-20, and the terms of the enclosed H-GAC Master Customer Agreement ("H-GAC MCA") and its addenda, which operates as an End User Agreement under Article 2 of the H-GAC Contract Special Provisions. This proposal shall remain valid for 90 days from the date of this cover letter. Acceptance of this proposal may be made by delivering to Motorola a signed copy of the H-GAC MCA.

We thank you for the opportunity to furnish you with "best in class" solutions and we hope to strengthen our relationship in implementing this project. Our goal is to provide you with the best solutions and services available in the industry.

Should you have any questions or inquiries please contact your Motorola Solutions Representative, Shannon Hickey at 415-516-9145 or via email at [Shannon.hickey@motorolasolutions.com](mailto:Shannon.hickey@motorolasolutions.com).

Best regards,

Larsen Grabenkort  
Area Sales Manager

## Section 1

# Introduction

Motorola Solutions is proud to present this firm proposal for a VESTA® 9-1-1 call handling hardware refresh in response to Columbia County 911's request. As part of this proposal, the following additional options are offer.

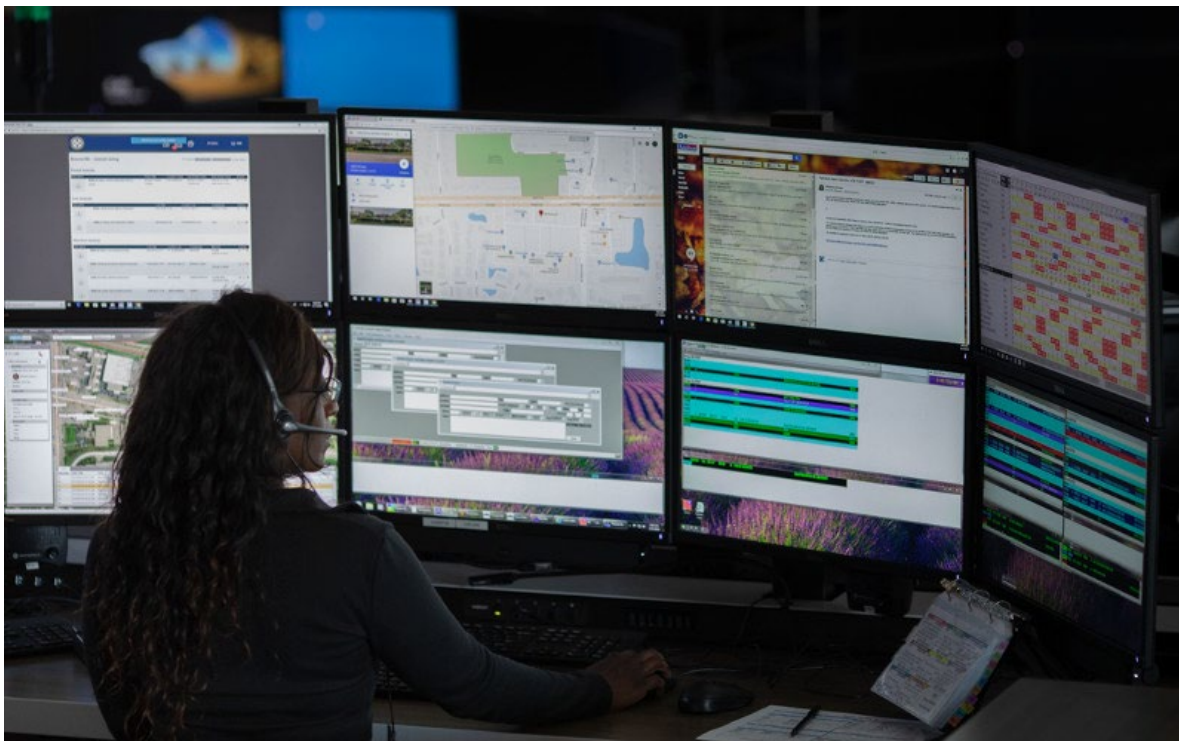

- VESTA SMS
- VESTA Analytics
- VESTA Map Local
- Cybersecurity Services for VESTA 9-1-1 – Managed Detection and Response Service
- CommandCentral Cloud Based Services – Citizen Input and Smart Transcription

Today, the VESTA 9-1-1 solution is the industry standard comprehensive NG9-1-1 solution. It offers PSAP's increased product features, operational efficiencies, and reliability along with stable, centralized call handling for individual or multiple PSAP locations.

VESTA 9-1-1 is designed to meet emerging 9-1-1 technology and has evolved with the introduction of CommandCentral cloud-based services to accept additional technologies while maintaining our reputation for reliability and ease of use. The cloud-based services integrate with the existing VESTA 9-1-1 solution and provides visual content including photos and real-time video and real-time transcription of call audio.

Motorola Solutions offers a trusted, comprehensive suite of cybersecurity solutions to cost-effectively reduce risk and allow customers to focus on their mission instead of security. As cyber attacks become more frequent and sophisticated, and mission-critical communications systems become interconnected to other IP-based systems, prevention and proactive risk management are critical. In addition, finding and retaining qualified cybersecurity professionals is more challenging than ever. As a result, Public Safety Answering Points (PSAPs) must consider next-generation cybersecurity solutions to better detect and defend against advanced threats. Having security elements like antivirus, firewalls or unmonitored intrusion detection systems inspecting traffic is no longer enough. A cyber attack can not only bring your system down — it can also cost you millions of dollars in remediation, along with lost trust and damage to your reputation. Managed Detection and Response is part of the managed security services options we have purpose built for VESTA 9-1-1 direct customers.

The VESTA 9-1-1 solutions are designed to meet growing community needs and emerging 9-1-1 technology. Columbia County 911 is assured the solutions proposed herein will comply and meet both the E9-1-1 requirements of today and the NG9-1-1 requirements of tomorrow. By selecting Motorola Solutions, Columbia County 911 can be confident they are partnering with the leading provider of Public Safety 9-1-1 solutions and selecting the highest possible level of service to the visitors, citizens, and public safety professionals of their region.

VESTA 9-1-1 is an integral part of Motorola Solutions' end-to-end Public Safety Software Enterprise driving the integration of a complete Command Center suite. From answering thousands of emergency calls and text messages to processing video, disparate evidence and records, Motorola Solutions is helping agencies transform into intelligence-driven command centers, enabling them to make more informed decisions resulting in better outcomes. Learn more about [Motorola Solutions'](#) wide-ranging product portfolio.

## Section 2

# Solution Description

## 2.1 Background

Columbia County 911 is currently a standalone VESTA System located at 58611 McNulty Way, Saint Helens, Oregon with software version R6.0, Analytics Standard R3.3.

Columbia County currently operates five (5) Call Taker positions, with VESTA Analytics and three (3) Aastra IP Phones.

VESTA Activity View and CDR is currently being used

## 2.2 Solution Review

Columbia County have requested a hardware refresh on their existing VESTA system, which has recently surpassed the 5-year mark. The new system will include the replacement of all workstations, servers, gateways, and switches.

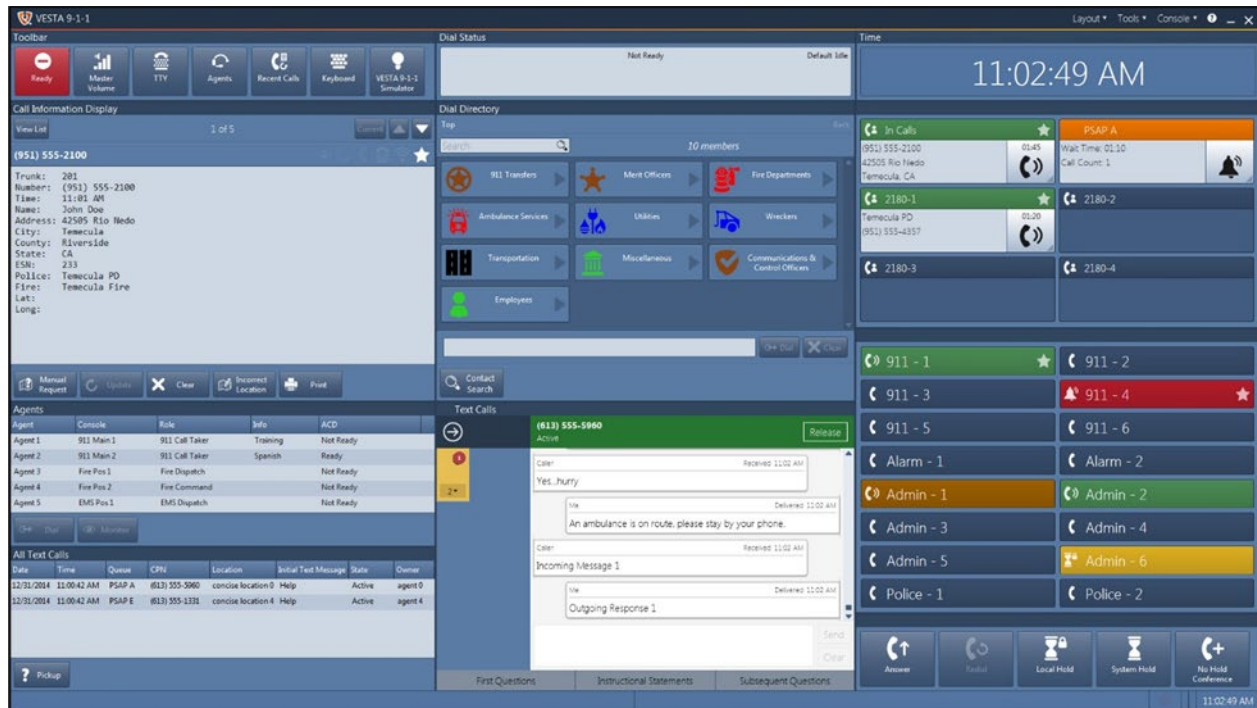

The new solution will leverage existing investment and licensing where applicable while offering support for both current and future NG9-1-1 and ESInet technologies. .

As an option, Motorola Solutions has included the following features to be added to the hardware refresh:

- VESTA SMS
- VESTA Analytics
- VESTA Map Local
- Cybersecurity – Managed Detection and Response Services
- CommandCentral Cloud Services – Citizen Input and Smart Transcription

Columbia County will reuse/provide the following peripherals at all locations:

- CDR Printer
- Reuse the Netclock 9483+3 port
- Reuse Existing Headsets
- Backroom UPS
- ALI Modem
- KVM (if applicable)

Fully Configurable VESTA 9-1-1 Solution

## 2.3 Summary of Offer

The proposal includes a comprehensive NG9-1-1 Call Handling solution for one PSAP location.

The configuration proposed is based on information provided by Columbia County 911 during a review of system requirements. Any changes in the proposed system or equipment will require a change order, which may incur additional costs.

### Columbia County 911

- (5) Call Taker position(s) with single 24-inch Touchscreen monitor(s), VESTA 9-1-1 Basic Operations license

At each position:

- 48-key Genovation keypad with 25ft cable
- Sound Arbitration Unit (SAM) with Speaker Kit
- Handset and Cord
- VESTA® CDR per seat license (upgrade)
- VESTA® 9-1-1 IRR per seat license (upgrade)
- VESTA® Activity Viewer per seat license (upgrade)
- (3) Enhanced Admin IP phone(s) with CDR license (upgrade)
- Support up to (8) CAMA Trunks with (2) 4-port FXS gateways
- Support up to (12) Admin lines with (3) 4-ports FXO gateways
- (1) T1/PRI Voice Modules ) (1-span)

- (1) VESTA 9-1-1 Admin Printer
- MIS - Call management and reporting system
  - VESTA® 9-1-1 Activity View System license (upgrade)
    - (1) VESTA® 9-1-1 Activity View Administrative Workstation with 24" Touchscreen Monitor and generic configuration
  - VESTA® 9-1-1 CDR Service license (upgrade)
- Columbia County 911 will reuse existing NetClock or provide Motorola Solutions with a Time Synchronization device that is NTP compliant.

### *Training provided*

- VESTA 9-1-1 Agent
- VESTA 9-1-1 Agent Train-the-Trainer
- VESTA 9-1-1 Admin
- E-Learning VESTA 9-1-1 Activity View
- E-Learning VESTA SIP
- Cutover Coaching

### *Optional*

- VESTA® SMS - integrated Text-To-9-1-1 services – customer is responsible for TCC services and network charges
  - E-Learning VESTA 9-1-1 SMS Agent Delta
  - E-Learning VESTA 9-1-1 SMS Admin Delta
- VESTA® Analytics Media 3.6
  - (3) VESTA Analytics per per phone license (new)
  - (2) VESTA Analytics User License (upgrade)
  - (5) VESTA Analytic per workstation license (migration)
  - VESTA Analytics Admin training
  - VESTA Analytics Remote training
- Cybersecurity Services for VESTA 9-1-1
  - Managed Detection and Response
- VESTA Map Local
  - (1) VESTA Map Local R5 Media
  - (5) VESTA Map Local per seat license
  - (5) 8GB RAM DDR4-3200
  - (5) 24" Touchscreen Monitors
  - E-Learning VESTA Map Local Agent

– E-Learning VESTA Map Local GIS Data Hub

*System-wide*

- Optional Columbia County 911-wide data collection and reporting services on all 9-1-1 transactions
- System and component level monitoring, alarming, diagnostics and reporting services
- Optional Basic GIS management services to support the VESTA Map implementation
- All-inclusive software support, updates, and upgrades for the contract term
- 24/7/365 help desk, trouble ticketing and customer support services
- Installation, testing, training, maintenance and on-site support services by Motorola Solutions
- Project management services for the planning, design, testing, installation and operation of systems for contract term

## Section 3

# Optional Product Description

The following descriptions are optional products proposed in addition to the hardware refresh.

## 3.1 Optional VESTA SMS

The VESTA SMS solution allows VESTA 9-1-1 systems to connect directly to Text Control Centers (TCCs) using standards-based MSRP protocol for delivery of text messages directly to VESTA console users. Some of the features of the VESTA SMS solution are:

- Standards based Text-to-9-1-1 solution
- Easy and flexible to operate
- Supports multiple text queues
- Text capability may be assigned to user roles
- Allows transfer of text calls within a single multi-PSAP system

VESTA Outbound - Smart911 Profiles link a Calling Party Number (CPN)/Phone Number to provide address, medical, health data about individuals & families. SMS Chat provides the ability to send an outbound text messaging to a phone number, allowing telecommunicators a way to initiate an outbound text message for welfare checks or abandoned callbacks. Rave Facility data links a Calling Party Number (CPN)/Phone Number or Location to campuses, buildings, floorplans, entry codes/instructions, emergency procedures and emergency contact information

## 3.2 Optional - Data Management

### 3.2.1 VESTA Analytics

VESTA® Analytics is Motorola Solutions next-generation management information system (MIS). The VESTA Analytics solution is a sophisticated emergency call center application for PSAP management and is optimized for regional administrators and PSAP supervisors.

VESTA Analytics provides a number of new capabilities not previously existing in 9-1-1 reporting solutions that play an important role in improving efficiencies in staffing, operations, and information management.

- Enhanced operational management — VESTA Analytics improves the ability to gather, organize, data-mine, and report near real-time information. VESTA Analytics incorporates an advanced data warehouse for improved performance for creating custom reports and searching for data.

- Personnel management — VESTA Analytics includes 9-1-1 specific key performance indicators (KPIs) that help assess the performance within the call center for more informed decision-making regarding staffing.
- Automated evidence organization — VESTA Analytics automatically associates related calls into the context of individual incidents. This approach simplifies the tasks involved with reconstructing, organizing, searching, and archiving historical incident information.

VESTA Analytics is built upon state-of-the-art technology, providing a foundation for future enhancements, and providing next-generation capabilities.

VESTA Analytics Standard provides the following features:

- Home page — VESTA Analytics Home page provides a simple calling party number (CPN) or date-time search, and one-click access to report apps. The following report apps are installed with VESTA Analytics as samples:
  - Last Month Call Count by Call Types per Trunk Line
  - Last Week Call Count by Day per Agent
  - Last Week Wait Time Range per Call Category
  - Previous 365 days Call Count by Month per Xfer Conf Target
- Event display — The Event List and Event Details panes display information that VESTA Analytics captures from integrated systems. Custom filters can be created to find events meeting specific conditions.
- Trigger filtering — Events meeting user-defined criteria can be highlighted as they enter the event list, indicating a possible problem event or trend.
- Scenario and event management — VESTA Analytics automatically associates related events gathered from integrated systems such as the call processing system. The Scenario Management system provides manual control over associations, and creates associations between complex scenarios.
- Microsoft SQL Server Analysis Services (SSAS) — A database structure has been implemented that enables more efficient reporting.
- Custom grouping and filtering — You can create custom groups and filters to generate advanced reports. VESTA Analytics also supports shift-based reporting.
- Automatic data purging — VESTA Analytics Standard, Hosted, and Enterprise automatically removes data after 5 years to reduce the size of the database. This ensures that sites always have access to a 5-year sliding window for running historical reports, comparing trends, and maintaining performance.
- Reports and report layouts — VESTA Analytics includes many new reports offered in three bundles: standard, advanced, and analytical. Reports include custom logos, user-selectable layouts, graphs, and a description of the content of the report. Reports can be created, saved with a user-defined name, and run with a single click. VESTA Analytics Product Brief – Standard 2
- Scheduled reports — You can create custom reports and store them for future generation or scheduled distribution. The Report Scheduler allows reports to be distributed by e-mail (requiring an e-mail server) or stored to a shared folder.
- Ad hoc reports — Custom reports can be created from scratch and saved to the report library using an advanced ad hoc engine, or using the analytical solution. Ad hoc reporting has been

enhanced with user-friendly data views based on agent status, agent perspective, caller perspective, and trunk-line perspective. Note VESTA Analytics includes a powerful ad hoc reporting engine built on SQL Reporting Services. Because ad hoc reporting is specific to the needs of a site, does not provide technical support for customized ad hoc reports. If you want to use the ad hoc reporting engine, consider obtaining advanced training on SQL reporting services or work with a firm that has this expertise.

- Standardization of call properties — The classifications applied to calls have been simplified and streamlined for more consistency between call platforms. For example, the origination of the call (Call Origin) is classified as incoming, outgoing, or internal. These classifications can then be used to provide more complete information when filtering or grouping on reports.
- Perspective reporting — This feature allows for analysis of call handling data from different points of view. For example, a call analyzed from the caller perspective includes a ring time until the call was answered, whereas from the agent perspective, it only includes the ring time that occurs at the agent's position. If the agent is on a call, that ring time does not exist from the agent's perspective.
- Time parameters — Reports can be grouped by time-based parameters (by year, quarter, month, week, day, or hour). The requested data element is displayed based on the requested time period.
- Key performance indicators (KPIs) — VESTA Analytics includes 5 key performance indicators developed specifically for emergency call centers.
- SMS support — VESTA Analytics supports capturing and reporting on SMS sessions as a separate call type.
- Printing of configuration data — Configuration information for agents, consoles, lines, and so on can be printed from the App Manager.
- Centralized management of security — Groups, users, and permissions are automatically created when VESTA Analytics is installed. In addition, site administrators and technicians can manage user authorization from the App Manager Product Security page.
- Role-based logon — VESTA Analytics supports the ability to accept an agency (site) name and role from the computer telephony integration (CTI) system and assign activities to the agency (site) and to the specific role (call taker, dispatcher, and so on). This information is then available for reporting and analysis.
- Browser-based application — VESTA Analytics does not need to be installed on remote workstations, thus eliminating possible disruptions to the call takers. It is Key features 3 a server-based application that is accessed from a browser on local or remote computers.
- VESTA Analytics Data Migration Utility (VADMU) — A utility that, after a system upgrade is completed, migrates other multiple sites' databases into the newly upgraded VESTA Analytics site database.
- VESTA Locate integration — Calls in the Event List can be selected and plotted on a VESTA Locate workstation.

Motorola Solutions also offers the following fee-based enhancements to VESTA Analytics:

- Advanced reporting — Advanced reports are next generation reports specifically developed for the 9-1-1 site. They are based on Analysis Services (a historical data warehouse, current to the last collection) and provide more complex information than standard reports.

- **Dashboard reporting** — This reporting module provides drill-down features, the ability to obtain data based on user-defined parameters, and the ability to create special meters, graphs, and tables. In addition, this module provides pre-defined views of configurable data for review.
- **Enterprise and Hosted (multi-site) deployment** — You can run reports for remote Enterprise and Hosted sites. Enterprise functionality is the ability for a single VESTA Analytics Enterprise server to collect call records from other VESTA Analytics servers and aggregate the data in a single database for enterprise-wide reporting. This functionality is similar to MagIC Data Repository (MDR) functionality, with the added ability to segment the data by site. Hosted functionality refers to the ability for multiple sites to share a common CTI system while controlling access to the data by site. In this way, users from one site cannot see data from another site. User authorization controls which users can see which site's data.
- **Data Dictionary** — provides a fee-based Data Dictionary to assist in understanding the database schema.

The reporting capabilities of the VESTA Analytics solution are highly robust, supplying several standard documents that provide facts on call counts, transfer averages, trunk and line utilization, etc., and can accommodate customization when needs are more specific. All reports can be scheduled and automatically distributed, or you may choose to create an ad hoc report. The VESTA Analytics MIS solution can automatically associate related events, which simplifies incident reconstruction, organization, searching and archiving.

**VESTA Analytics Home Page with 4 to 8 Tabs**

## 3.2.2 VESTA Analytics Front End

No dedicated client software is required to access the VESTA Analytics system. All access is performed using the Microsoft Internet Explorer 6.0 or later browser. The workstation accessing the VESTA Analytics system must:

- Have Microsoft .Net 2.0 or later software libraries installed.
- Be connected to the same network as the VESTA Analytics server or have other dedicated, secure access to the VESTA Analytics server network (VPN, etc.)
- One MS-SQL License per user accessing the VESTA Analytics MIS system is required.
- One VESTA Analytics system access license is required per user accessing the VESTA Analytics MIS system is required.

The VESTA Analytics access licenses are “concurrent usage” licenses. Users may log into the system from any workstation connected to the network as long as the number of users concurrently logged in do not exceed the number of access licenses purchased.

VESTA MIS Solution

## 3.3 Optional - Geographic Information System (GIS)

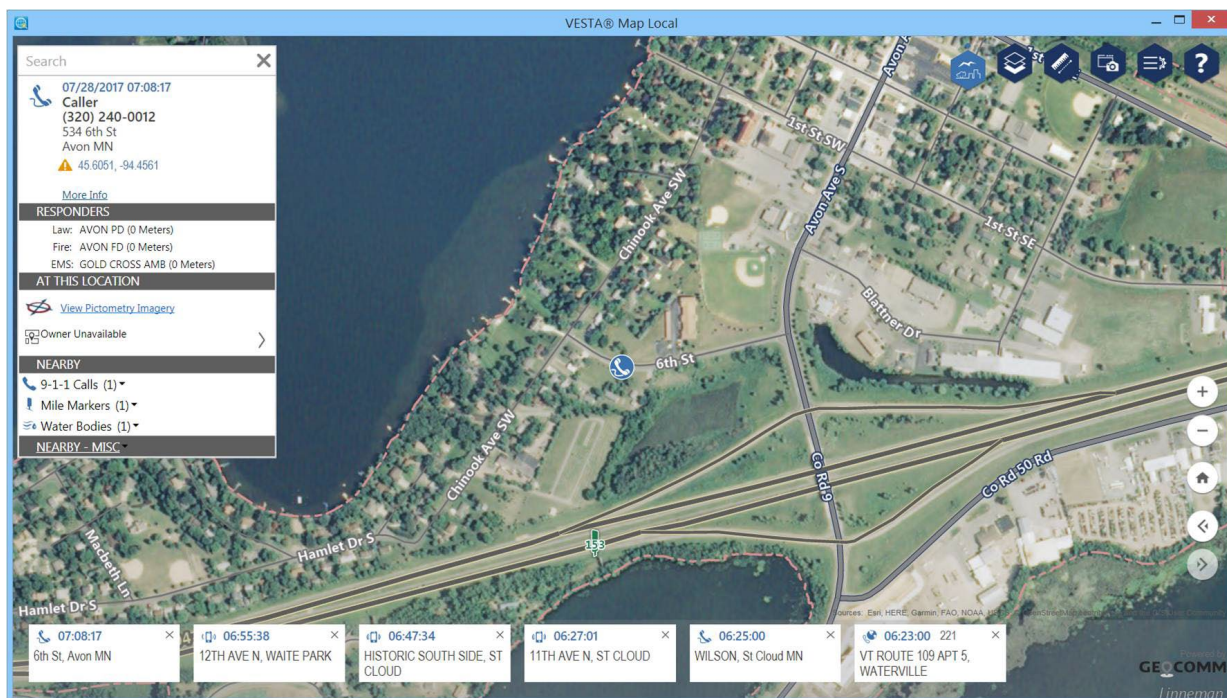

To meet the needs of PSAPs of varying sizes, Motorola Solutions can provide a suite of geographic information systems (GIS) display and update products. Each GIS display product supports the following capabilities:

- Display wireline addresses based upon street centerline or point data
- Accurately plot Phase I & II wireless calls, including showing the uncertainty (if provided)
- Accurately plot SMS/Text-to-9-1-1 calls based on the location information provided with the call
- Update the caller's location when ALI or location information rebids are performed on the VESTA 9-1-1 call taker console
- Integration with Pictometry and aerial imagery (optional)

### 3.3.1 VESTA Map Local

VESTA Map Local is a subset of VESTA Map that is run locally on the workstation, rather than being network dependent. This allows greater flexibility for use in smaller sites that may not have dedicated network resources to support the full VESTA Map product. VESTA Map Local provides all of the following features:

- Provides a detailed, easy-to-use interface for viewing and managing incidents on digital maps
- Displays call types (wireline, Phase I and II, VoIP and Telematics) on the map using unique icons for a comprehensive view
- Supports Internet delivery of online and 3rd party data such as ArcGIS online, Rapid SOS, etc.
- Streamlines Call Handling processes by displaying 9-1-1 call type and location information as layers versus disparate system views.

**VESTA Map Local**

#### *RapidSOS Enhanced Location*

To help the PSAP gain greater location accuracy, the RapidSOS NG911 Clearinghouse data is available from the VESTA Map Local solution.

The benefit of integrating with the RapidSOS NG911 Clearinghouse includes:

- Security – The location is stored securely in the NG911 Clearinghouse, an access-controlled NENA i3 – compliant Location Information Server (LIS) and the Additional Data Repository (ADR)
- Speed of Delivery – Upon delivery of a 9-1-1 call, VESTA automatically queries the NG911 Clearinghouse, providing location information at the same time Phase 1 location data arrives

- Location Display – RapidSOS supplemental location data is displayed alongside the ALI location (when available), not instead of the ALI location

**RapidSOS Enhanced Location**

## 3.4 Optional - CommandCentral Cloud-Based Services

### 3.4.1 Citizen Input

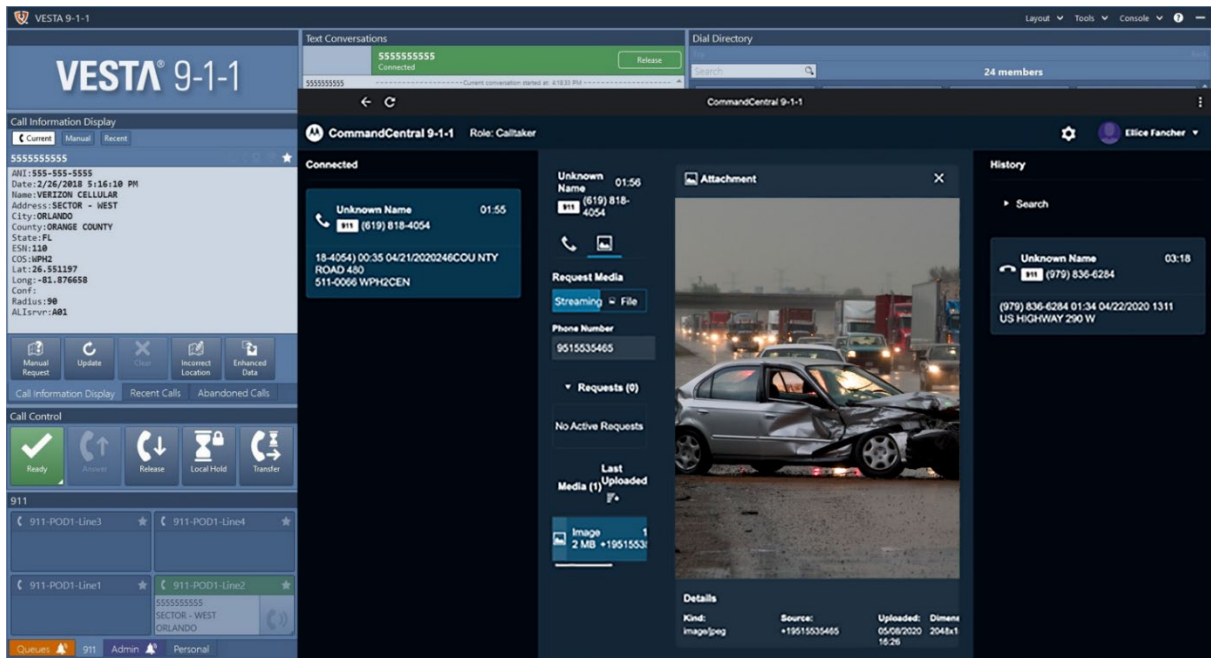

Citizen Input is part of the CommandCentral portfolio of services available on a subscription basis to emergency communications agencies. Citizen Input provides VESTA 9-1-1 customers the opportunity to take steps towards realizing the benefits of NG9-1-1 content including streaming/recorded video and photo attachments. Offering PSAPs experience with cloud-based services in a flexible yet controlled environment, Citizen Input can be deployed with current CPE platforms extending capabilities with no impact to call handling functionality.

Citizen Input requires VESTA 9-1-1, Release 7.2 and above and a FortiGate 60E Firewall for each PSAP using the service.

Citizen Input provides the following features:

- Allows citizens to send video, photographs and data to the PSAP
- No app download required on citizen's device
- Provides a controlled, permission-based approach to managing visual content
- Stores visuals as part of the call detail history
- Content is approved by the PSAP before it can be submitted and viewed
- Once authorized, an SMS containing a URL is sent to the citizen's phone that placed the 9-1-1 call. The citizen uses the URL to send the video or photo to the PSAP

- Viewing can be stopped at any time and all content is captured as permanent records; storage and strong evidence protection protocols are enforced
- Visual content is linked to VESTA 9-1-1 call records for audit purposes and ease of tracking

Citizen Input allows a citizen to send video, photographs and data to the PSAP enhancing operations and improving call handling efficiency. We know PSAPs are uncomfortable about allowing video and photographs into the PSAPs and we are addressing this concern with a controlled, permissions-based approach where visuals are not accepted unless the PSAP authorizes submission. All digital evidence collected from callers using Citizen Input is stored and tracked in a CommandCentral storage tool. Storage is included with a subscription to Citizen Input.

Unlimited access to user training videos and Quick Reference Cards (QRC) are included in the Citizen Input subscription service. The comprehensive videos are sufficient to educate each user and have them ready to begin using Citizen Input in a short amount of time.

### 3.4.2 Smart Transcription

CommandCentral Smart Transcription is a cloud-based service that takes the 9-1-1 call audio and transcribes it real-time into a searchable transcript, making it available for live call monitoring to increase situational awareness across an entire agency. It preserves the transcript in long-term, secure storage for post-call analysis.

Smart Transcription is offered as a subscription service and works on VESTA 9-1-1, Release 7.2 and above.

Smart Transcription provides the following features:

- Integrated real-time audio transcription from VESTA 9-1-1
- Real-time and post-call transcription
- Keywords and full text search capability

- Quick search and review historical transcripts
- Agent, console and call metadata provided
- No app download required on citizen device
- Security processes built into the service to reduce the risk of cyberattacks
- Ability for supervisors to monitor transcripts
- Transcripts stored, along with metadata, for investigations, case summaries or locating conversation patterns over time
- Short learning curve for call takers since there are no changes on how they answer voice and text calls today on their VESTA 9-1-1 system
- No impact to VESTA 9-1-1 call handling functionality

## 3.5 Optional - Cybersecurity Services for VESTA 9-1-1

Protecting people starts with protecting the PSAP, and public safety organizations need mission-critical systems to be fully available and resilient to cyber attacks. The risks to organizations both large and small are growing as threats like ransomware become increasingly profitable for cyber criminals.

VESTA Managed Detection and Response reduces the risk that a cybersecurity threat will impact system availability, integrity, and confidentiality. Qualified cybersecurity analysts with extensive experience working on VESTA 9-1-1 mission-critical systems will monitor the Customer's system for signs of cybersecurity threats.

## 3.5.1 Managed Detection and Response

### 3.5.1.1 ActiveEye Security Management

Motorola Solutions' ActiveEye Security Management platform collects and analyzes security event streams from ActiveEye Remote Security Sensors in the Customer's VESTA 9-1-1 system, using security orchestration and advanced analytics to identify the most important security events from applicable systems.

The platform automates manual investigation tasks, verifies activity with external threat intelligence sources, and learns what events will require rapid response action. The goal is to reduce time to resolution and contain any security event.

The Customer will receive access to the ActiveEye platform as part of this service. ActiveEye will serve as a single interface to display system security information. Using ActiveEye, the Customer will be able to configure alerts and notifications, review security data, and perform security investigations.

#### *ActiveEye Remote Security Sensor*

One or more ActiveEye Remote Security Sensors (AERSS) will be deployed into the VESTA 9-1-1 system to deliver the service. These sensors monitor geo diverse sites in the system for security events and pass security information to the ActiveEye platform.

#### *Log Collection / Analytics*

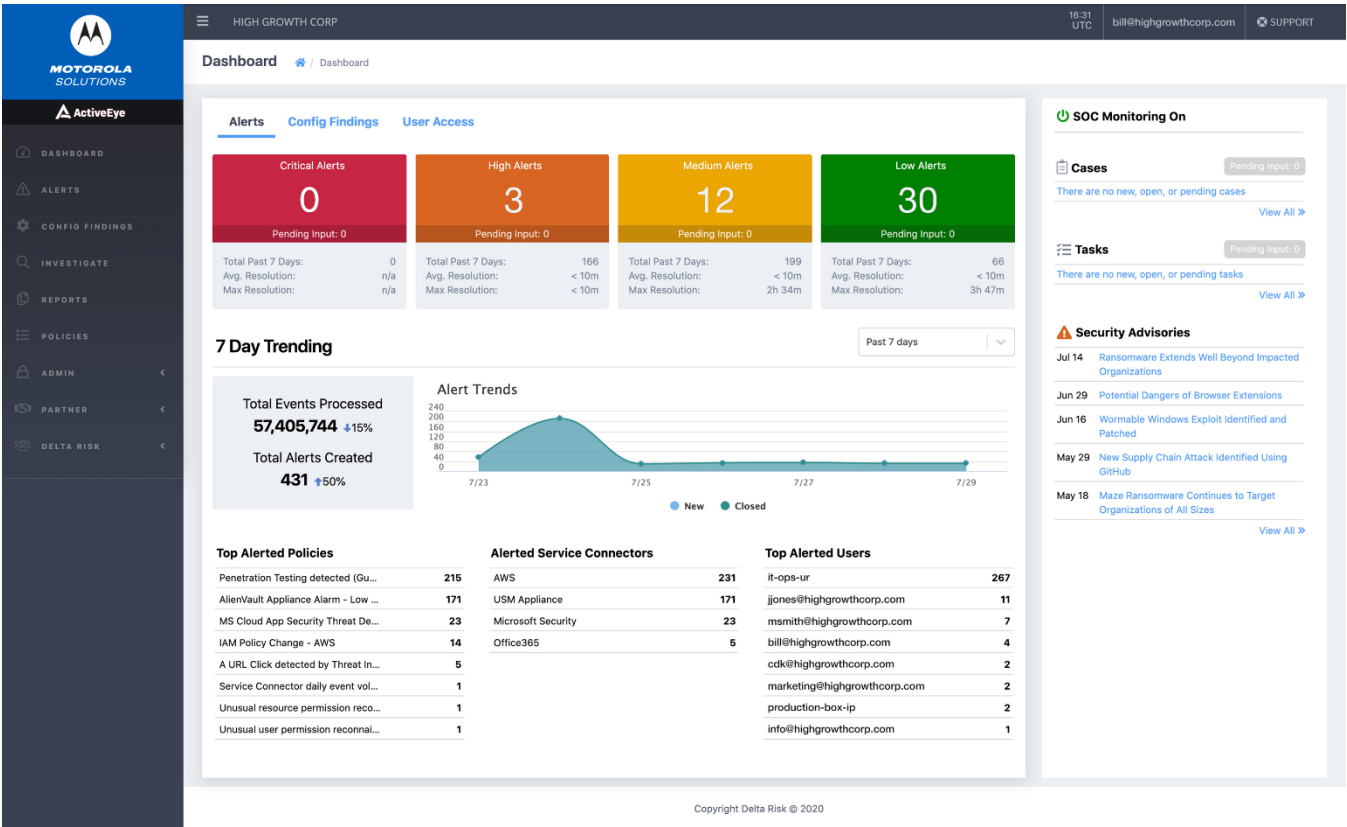

The AERSS deployed in the system collect logs and other security information from applicable servers, workstations, switches, routers, and firewalls. This information is forwarded to the ActiveEye platform, which uses advanced analytics to identify signs of cybersecurity incidents.

#### *Intrusion Detection System*

The AERSS deployed in the system include an Intrusion Detection System (IDS) that constantly monitors traffic passing across, into, or out of the VESTA 9-1-1 system. The IDS analyzes traffic for signs of malicious activity in real time, and performs packet level and flow level analysis to enable communications modeling. This information is used to identify anomalous behavior that is not captured by pre-defined traffic signatures, including traffic using encrypted connections. The IDS forwards detected suspicious activity to the NSOC for further analysis.

#### *Service Dependencies*

It is mandatory that all VESTA Managed Detection and Response customers also subscribe to the Application Monitoring and Response service for VESTA 9-1-1. In the absence of an active Application Monitoring and Response service for VESTA 9-1-1, the VESTA Managed Detection and Response service cannot be delivered.

ActiveEye Platform Dashboard

3.5.1.2 Network and Security Operations Center

The VESTA Managed Detection and Response service is performed by Motorola Solutions’ Network and Security Operations Center (NSOC) using specialized monitoring elements. The NSOC’s expert cybersecurity analysts monitor for alerts 24x7x365. If an event that may represent a threat is detected, analysts will investigate and initiate an appropriate Customer engagement. Customer engagements may include, but are not limited to, requesting additional information from the Customer, continuing to monitor the event for further development, or informing the Customer to enact the Customer’s documented Incident Response plan.

## Section 4

# Statement of Work VESTA 9-1-1

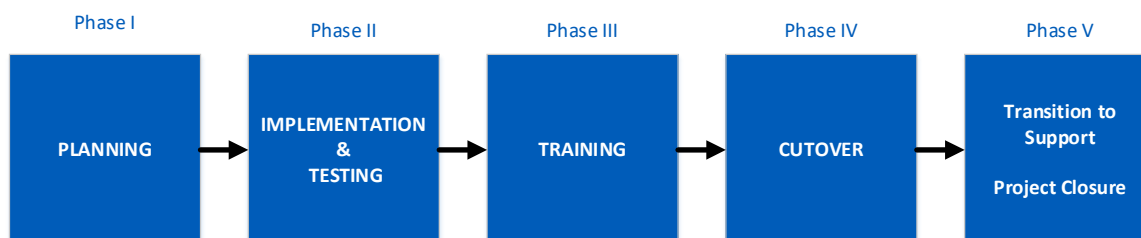

Implementation Planning is an iterative process. It begins during the planning stage and continues until the Next Generation 9-1-1 (NG9-1-1) VESTA 9-1-1 system from Motorola Solutions, Inc. (Motorola Solutions) is formally migrated and accepted by the agency. The Project Manager (PM), working with the project team, is responsible for formulating the required plan to implement and communicate the support process for the VESTA 9-1-1 solution.

## 4.1 Implementation Methodology

Your VESTA 9-1-1 system is a large project involving complexity, contingencies, and collaborations with multiple parties. Successful implementation requires an organized and systematic approach to project management.

Your Project Manager and Motorola Solutions Project Manager will play a particularly important role in this process by communicating back to their teams the project plan, project status, risks, and next steps. The project will use an MS Project Schedule and Project Status Report, which will provide a consistent vehicle for communication, management, reporting of progress and detection of potential progress delays.

Our project management methodology is also based upon the Project Management Institute's (PMI) Project Management Body of Knowledge (PMBOK). Our methodology will incorporate one primary goal; align the project with your overall expectations. Unless otherwise requested, Motorola Solutions will implement the project using a "phased" process.

## 4.2 Phase I - Planning

Phase I is the period in which the project is formally launched, the project design is finalized, the Project Management Plan (PMP) is finalized and resources are scheduled. Upon the agency contract award the Motorola Solutions PM coordinates Phase 1 activities with you to ensure that the project scope has been assessed, and that all deliverables have been captured in the Motorola Solutions Project Schedule. The PMP will be the control document for Motorola Solutions deliverables for the implementation, as will other critical dates or milestones that are integral to the project.

The specific objectives of the planning phase include:

- Expound on specific strategies and project options

- Confirm NG9-1-1 project scope
- Finalize the solution design
- Finalize plans for solution delivery strategies and resources. The solution is reviewed to align each primary stakeholder with a common vision and strategy for unified team design and planning.
- Determine aspects of the 9-1-1 system that are subject to change within the scope of the project. Much of this entails identifying and collecting information from project stakeholders.

Prior to collecting the detailed information that will be used in the course of the project, it is important for the team to understand the overall project goals and the criteria that will govern their decision-making.

The project principles and constraints are communicated to all team members so that all design, integrations, and deployment decisions can be assessed. Guided by the project principles and constraints, more detail information is then collected. This includes conducting site visits and the Project Launch, Call Flow and Design Review Meeting.

The original configuration proposed was based on information provided by Columbia County 911 during a review of system requirements. Any changes in the proposed system or equipment will require a change order, which may incur additional costs.

## 4.2.1 Project Kick-off Meeting

The project kick-off meeting is scheduled as soon as possible following receipt of the contract. One of the main objectives of the meeting is to ensure that all project participants begin the project with a clear and shared understanding of the project and project expectations. During this meeting:

- Process owners are identified
- Key project milestones and objectives are introduced and discussed
- Review the overall project “As Purchased” design and Statement of Work (SOW).
- First review of the draft project plan

## 4.2.2 Project Workflow and Design Review Meeting

The project call flow and design review meetings are scheduled with you to be held at the site. The purpose of the Call Flow and Design Review (CDR) meeting is to obtain a comprehensive understanding of your current operational environment and desired future workflow through interactive discussions. It is also to assist in understanding how the new VESTA 9-1-1 system can be configured to meet the operational needs.

During this meeting, Motorola Solutions will gather critical information with your agency to set up and program the VESTA 9-1-1 system, including detailed review of trunks, lines and circuits. Motorola Solutions will work with you to document the final system design elements that will be used for all aspects of the programming and configuration of your VESTA 9-1-1 system. Design discussions and decisions will include but are not limited to:

- Detailed review of the “As Purchased” system design
- Detailed review of call flow and system design
- Detail review of Network Requirements

- Detail review of Network Components (routers and switches)
- Detailed review of the project Roles and Responsibilities of the collective team
- Site walks for Environmental Review & Intra-system interfaces
  - Environmental:
    - Power: outlets, power draw, UPS, generator
    - Cabling: positions, training room, backroom
  - Adjuncts:
    - CAD: ALI spill to CAD
    - Recorder
    - Mapping
    - PBX
  - Physical space, furniture, & logistics
  - External interfaces: door access, alarms

It is important that your key operational decision makers participate in these design meetings. It is critical that you and Motorola Solutions understand the responsibilities of each entity in this process. The detailed discovery and full disclosure of all facets of the Call Flow (how the different types of trunks, lines and circuits that are answered at the PSAP locations are routed to and answered by the current communications systems) and the Work Flow (how Call Takers and Dispatchers interact with callers and each other) is critical in the design of the new system. This will ensure a smooth and comprehensive transition.

### 4.2.3 Project Plan Approval

Once the system design has been finalized, the Motorola Solutions PM will schedule resources for site implementation.

Motorola Solutions resources will be scheduled and dates communicated to the team members via the Motorola Solutions Project Schedule. The Motorola Solutions Schedule will be drafted and forwarded to team members for review and comment. This “First Pass” schedule will be used to present you with the initial deployment schedule. Once all feedback and changes have been received and integrated into the schedule, the Master Project Schedule will be created and communicated by Motorola Solutions. Once published and a baseline established, the Master Schedule will only be changed as per appropriately submitted change requests.

The Planning Phase ends when:

- The Project Plan has been approved
- System design and Call Flow are complete
- The Master Project Schedule has been developed and a consensus among concerned parties reached regarding deliverables and milestones
- A draft site cut plan has been developed
- A draft Acceptance Test Plan has been developed
- The materials purchased from Motorola Solutions ship to the site

## 4.3 Phase II – Installation and Testing

Phase II is the period of time in which site preparation, site installation and testing take place. The project's implementation is accomplished to the degree that is possible without actually going "live", while minimizing disruption of the site's ongoing operations. The Motorola Solutions PM will coordinate the Phase II activities with you to minimize interference with other site activities, while ensuring that Motorola Solutions' implementation and testing are completed as per the Project Plan and the Master Project Schedule. Implementation and Testing milestones and deliverables will be documented and managed via the Master Project Schedule.

During this phase the components of the solution, including applications, servers, network components and data flow, are configured and readied for deployment. All network, regional and premise components are delivered, and the equipment rooms and other facilities are made ready.

### 4.3.1 Solution Staging

The process starts with the staging of the system equipment at Motorola Solutions. Your site equipment is assembled, configured and burned in with your specific site information, including but not limited to, system software, IP addresses, machine names, and line and trunk data. Your equipment is also quality-checked for any defects or errors, then packaged and shipped to site.

Staging increases efficiency by leveraging our technical expertise to help prevent out-of-box failures and performing initial configurations before equipment arrives on-site. Less on site installation time is required by staging and testing equipment in our facility. You have assurance that each site's equipment is configured and tested, reducing the risk of onsite equipment issues.

Once staged your system will be shipped to your site for inventory and installation.

### 4.3.2 Site Installation

The following outlines the general steps that will be required for system installation. Additional detail and steps will be added during project meetings.

- Unpack and inventory equipment
- Uninstall old equipment and set aside (Motorola Solutions does not remove or dispose of any old equipment and peripheral
- Placement of racks/cabinet
- If new cabling is required:
  - Run cable from Motorola Solutions Connector Blocks to backboard for all 9-1-1 trunks
  - Run cable from Motorola Solutions Connector Blocks to backboard for all administrative lines
  - Run LAN cables from Motorola Solutions rack/cabinet to all Motorola Solutions workstations; this includes providing an adequate number of cable runs for the voice/network, logging recorder, and any other equipment that may be required
  - Run LAN cables from any IP phones to the Motorola Solutions rack (if applicable)
- Physical installation of all new VESTA 9-1-1 servers and associated components at the identified backrooms

- Physical installation of any network equipment required: switches, routers, etc. and associated cabling provided by Motorola Solutions
- Physical installation of all new peripheral devices at all sites
- For each site, configure and make operable the system as documented in the Detail Design Document to include:
  - Configure all new VESTA 9-1-1 system servers.
  - Configure all new workstations purchased for the sites
  - Perform Router Configuration
  - Perform Firewall Configuration
- Manage all appropriate data and accounts for the VESTA 9-1-1 system
- Perform installation and configuration of the Motorola Solutions provided MIS solution.

### 4.3.3 Testing

Our plan includes performing various required tests using the agency's actual infrastructure, which is beneficial for the following reasons:

- Testing will be performed on the production solution – actual hardware
- Testing will be performed in the actual environment
- Testing will allow you to easily observe the process

Testing is one of the major aspects of your VESTA 9-1-1 project and its success will require combined concentrated effort by your personnel and Motorola Solutions.

Upon contract award, Motorola Solutions PM will work closely with you to review the System Acceptance Test Plan and make mutual agreed upon changes to the Test Plan. At the completion of the implementation, your designated participants and Motorola Solutions will execute the test plan that displays the system is functioning and configured as designed and document test results.

### 4.3.4 Lockdown

The Implementation and Testing Phase ends when:

- Site Implementation is complete
- The site testing has been completed to the degree agreed upon during the project planning process

At the conclusion of the site's implementation and testing, a lockdown (configuration freeze) period will begin and remain in effect until system cutover. During implementation and training, vendors/providers of each subsystem will have the opportunity to perform pre-approved nominal system testing without making any user application and configuration changes. The site lockdown will be scheduled via the Master Project Schedule.

### 4.3.5 Customer Responsibilities During Installation

Responsibilities shall include, but are not limited to:

- Remove and dispose of all old equipment and peripherals

- Use reasonable efforts to provide supporting information to aid in the solution of any problems discovered during installation, implementation or post installation phases of this project
- Provide appropriate schedule notification and facility availability for VESTA 9-1-1 on-site services and training
- Notify and coordinate schedule changes with Motorola Solutions, which may require a Change Order (and potentially additional charges) dependent upon the change
- Assume sole responsibility for the accuracy and completeness of Customer-supplied data
- Provide dedicated (2) 20A 110V UPS protected power outlets for the facilities and appropriate grounding, or as determined by the site survey, for the proper operation of the emergency telephone and computer systems described herein
- Assume full responsibility for mutually approved base map file, including, but not limited to: X / Y coordinates, structure address, street centerlines, ESN boundaries, City boundaries; maintain this file and use it to update the VESTA 9-1-1 system
- Provide a complete ESRI-based GIS formatted map (shapefile) thirty to sixty days prior to on-site system installation
- Updates to the base map file, performed by personnel designated, will be transferred to the system per Motorola Solutions instructions
- Provide a floor plan outlining where Motorola Solutions provided equipment is to be installed and position numbers for Call Taker, Dispatch, and Supervisor positions
- Ensure the operating environment is fully functional and meets VESTA 9-1-1 minimum operating requirements
- Provide the applicable broadband service for the VESTA 9-1-1 Virtual Private Network (VPN) for remote monitoring, support and troubleshooting connectivity
- Provide for, move, test and make operational or otherwise deliver CAMA trunks, administrative lines and other PSTN connections to the backboard demarcation at least 14 days prior to installation start date
- Provide for, move, test and make operational or otherwise deliver two (2) ALI circuit connections to the backboard demarcation at least 14 days prior to installation start date
- Provide facility specific work and activity, including, but not limited to, construction, core drilling, grounding, and any electrical or conduit needed to support the implementation
- Assist Motorola Solutions in securing any required security clearances, identification tags and other requirements for access to areas within the facility necessary for Motorola Solutions personnel to complete their project responsibilities under this agreement
- Provide the tap to the network clock, if applicable. This includes all interfaces necessary, preferably to provide the name/address of a timeserver on the network.
- Document and supply configuration information on the existing CPE
- Make available at the equipment rack, all remote access lines terminated on RJ 11 or RJ 45 jacks or contract with Motorola Solutions as required
- Ensure that or contract with Motorola Solutions to guarantee Intermediate Distribution Frame (IDF), wall boards and/or interconnect points appear in the immediate area where VESTA 9-1-1 servers are installed
- CDR Printer
- Reuse the Netclock 9483+3 port

- Reuse Existing Headsets
- Backroom UPS
- ALI Modem
- KVM (if applicable)

## 4.4 Phase III – Cutover

Cutover is the primary focus of your NG9-1-1 project, its success will require a methodical focus on planning, executing, and monitoring. The cutover plan includes the fallback process to restore the system to the pre-migration operation in the event of a catastrophic failure.

The Cutover Plan defines the sequenced procedures and steps that will occur in the Cutover Phase to bring new equipment to an operational state, as well to transition services from the current equipment to the new. Appropriate safeguards are built in to ensure a cutover with minimal operational impact.

The Cutover Phase is the major transition point for the project. Motorola Solutions provided systems are brought on line and site's operations shift from the old equipment to the new equipment. Motorola Solutions' PM will work with your team to minimize the disruption for each PSAP. To that end, during the Planning Phase the decision will be made for the cutover plan. Examples of cutover options are as follows:

- **Flash Cut:** A flash cut requires a coordinated migration of 9-1-1 traffic to the PSAPs. Workstations at a site are cut over to the NG9-1-1. The benefit of a flash cut is that the PSAP personnel do not require temporary relocation to another PSAP that might not have the same radio or Computer Aided Dispatch (CAD) system, resulting in less disruption.
- **Relocation Cut:** You may choose to vacate their PSAP and operate at the alternate PSAP while their PSAP is upgraded. Once the upgrade is finished the personnel would systematically move to the new VESTA 9-1-1 system

The Draft Cutover Plan will specify specific tasks and responsibilities for Motorola Solutions provided systems, materials, and services. The Cutover Phase will be scheduled via the Master Project Schedule.

### 4.4.1 Motorola Solutions Responsibilities During Cutover

The Motorola Solutions PM will coordinate assignment of appropriate Motorola Solutions technical staff to support the transition to the new VESTA 9-1-1 system. Resource assignments will be planned and tracked via the Motorola Solutions Project Schedule.

- Pre-cut and Post-cut site testing will be performed in accordance with Motorola Solutions System Acceptance Test Plan that will be provided based on the type of system(s) purchased
- The Motorola Solutions PM will track Motorola Solutions issues and/ or exceptions noted during the site cutover and report updates to your team for updates to the Issues Control Log
- The Cutover Phase will end when the project team agrees that all cutover objectives have been met

At the conclusion of the Cutover Phase, a meeting will be held with the project team members to discuss the cutover, any remaining Motorola Solutions issues, and to review the Post-Cutover Support Plan.

## 4.4.2 Customer Responsibilities During Cutover

The agency is responsible for the following during cutover:

- Schedule appropriate personnel to support the cutover
- Assume responsibility for cutover activities that are beyond the scope of Motorola Solutions deliverables as delineated in the approved Project Plan
- Coordinate third party services and/or activities during the cutover that are not Motorola Solutions deliverables, but may affect Motorola Solutions systems and/ or services. This includes, but is not limited to Telco's, third party vendors, or other organizations that are participating in the cutover

## 4.5 Phase IV – Project Closure

Once all sites are operational and the post-cutover coverage is complete, the Project will move to closure phase. The project closure phase is the process of completing any open issues associated with the deployment of your project and to transition the project from Implementation to Support.

Project closure will occur when:

- All sites have cutover to the new VESTA 9-1-1 systems
- All on-site post cutover support has been completed
- All System Acceptance Testing has been successfully executed and approved by Columbia County 911
- Columbia County 911 has signed the Site Acceptance document

The Motorola Solutions PM will ensure all issues have been resolved or assigned for resolution. Any open issues at time of closure are to be transitioned to Motorola Solutions Technical Support, Site Installation, and Verification Package.

### 4.5.1 Site Installation and Verification Package

Motorola Solutions will provide “as-built” documentation:

- CPE inventory, including a complete list of installed equipment
- Solution Overview / Detailed System Document
- System Diagrams
- IP Schema and Naming Convention
- Bandwidth Estimates
- System Acceptance Test
- Other documentation as mutually agreed to by the parties

## Section 5

# Optional Statement of Work – Citizen Input & Smart Transcription

The Statement of Work (SOW) defines the principal activities and responsibilities of Motorola Solutions and the Customer. Motorola and the Customer will work to complete their respective responsibilities in accordance with the mutually agreed upon governing schedule. Any changes to the scope will be mutually agreed upon via the change provision of the Agreement.

Unless specifically stated, Motorola work is performed remotely. The Customer will provide Motorola resources with unrestricted direct network access to enable Motorola to fulfill its delivery obligations.

The number and type of software or subscription licenses, products, or services provided by Motorola or its subcontractors are specifically listed in the Agreement. Disregard references to any product within this document that is not part of the Contract Agreement.

### Award and Project Initiation

- Project Initiation and Planning will begin following execution of the Agreement between Motorola and the Customer.

### Completion and Acceptance Criteria

- Motorola Integration Services are considered complete upon Motorola performing the last task listed in a series of responsibilities. Customer task completion will occur per the project schedule enabling Motorola to complete its tasks without delay.
- Customer will provide Motorola written notification that it does not accept the completion of Motorola responsibilities or rejects a Motorola service deliverable within five (5) business days of completion or receipt of a deliverable.
- The Service Completion will be acknowledged in accordance with the terms of Master Customer Agreement and the Service Completion Date will be memorialized by Motorola and Customer. Software System Completion will be in accordance with the terms of the Software Products Addendum unless otherwise stated in this Statement of Work.

## 5.1 Project Deployment

### 5.1.1 Project Planning Session

A clear understanding of the needs and expectations of both Motorola and the Customer are critical to the successful implementation and on-going operation of Citizen Input, and Smart Transcription. In order to establish initial expectations for deployment we will work with you to help you understand the impact of introducing a new solution and your preparedness for the implementation and support of the application.

Shortly after contract signing, Motorola will conduct a one-on-one Project Planning Session teleconference with your designated resource to review the task requirements of each phase of the project.

The 911 Cloud Enablement Setup Questionnaire for Citizen Input, and Smart Transcription is used to collect required information that is used for provisioning from the Vesta 9-1-1 system. Delayed, incomplete or inaccurate information may have a significant impact on the Project Schedule.

#### *Motorola Responsibilities*

- Make initial contact with the Customer Project Manager and schedule the Project Planning Session teleconference.
- Conduct the Project Planning Session teleconference.
- Review the overall project scope and objectives.
- Review the resource and scheduling requirements.
- Review the 911 Cloud Enablement Setup Questionnaire and submit required Customer provided information.
- Discuss the online Motorola Solutions Software Enterprise Learning Experience Portal (LXP) training approach.

#### *Customer Responsibilities*

- Provide Motorola with the names and contact information for the designated LXP and application administrators.
- Collaborate with the Motorola PM and set the Project Planning Session meeting date.
- Attend the Project Planning Session teleconference.
- Review the 911 Cloud Enablement Setup Questionnaire and provide the required Customer information as agreed.

#### **Motorola Deliverables**

- Complete and submit the 911 Cloud Enablement Setup Questionnaire for Citizen Input, and Smart Transcription.

## 5.2 Hardware Procurement and Shipment

### *Motorola Responsibilities*

- Procure contracted equipment in accordance with the equipment list.
- Request shipping address and receiver name.
- Arrange for shipping to the Customer's location.
- Notify Customer of equipment shipping specifics and ETA for arrival.

### *Customer Responsibilities*

- Provide required information for equipment shipping/delivery.
- Complete and provide Tax Certificate information verifying tax status of shipping location
- Receive and store shipped equipment.

#### Motorola Deliverables

- Delivery of contracted equipment to Customer location.

### 5.2.1 Hardware, Software, Firewall Installation and Configuration

Motorola will work with the Customer to schedule the installation of the required hardware and software for the deployment of Citizen Input, and Smart Transcription.

#### *Motorola Responsibilities*

- Firewall installation and configuration if Motorola provided.
- Installation and configuration of the Vesta Data Publisher

#### *Customer Responsibilities*

- Provide network environment information as requested.
- Install and configure firewall if Customer provided.
- Test internet connection.

- Assist in coordination of Hardware, Software and Firewall installation and configuration.

Motorola Deliverables
<ul style="list-style-type: none"><li>• Install and configure firewall(s), if Motorola provided.</li><li>• Install and configure the Vesta Data Publisher.</li></ul>

## 5.2.2 Citizen Input, and Smart Transcription Client

Citizen Input and Smart Transcription is a SaaS application that is accessed via a Chrome web browser. The Client in this context consists of a workstation and web browser.

### *Motorola Solutions Responsibilities*

- Installation of Chrome on all Customer consoles as required.
- Installation of Console Transcript Application (CTA) and Vesta API
- Provide URL accessing Citizen Input, and Smart Transcription.

### *Customer Responsibilities*

- Provide client workstations and network connectivity suitable for accessing the application.

Motorola Deliverables
<ul style="list-style-type: none"><li>• Installation of Chrome on all Customer consoles as required.</li><li>• Installation of Console Transcript Application (CTA) and Vesta API</li><li>• Provide URL accessing Citizen Input, and Smart Transcription.</li></ul>

## 5.2.3 Citizen Input, and Smart Transcription for 9-1-1 Enablement and Provisioning

Motorola will provision the Customer's Production Citizen Input, and Smart Transcription system based on the information collected in the 911 Cloud Enablement Setup Questionnaire.

The Customer's agency(s) and End Users must be provisioned within the CommandCentral Cloud Platform using the CommandCentral Admin tool. The provisioning process allows the agency(s) to define the specific capabilities and permissions of each user.

### *Motorola Responsibilities*

- Use the CommandCentral Admin tool to establish the Customer and the Customer's agency(s) within the CommandCentral cloud platform.
- Enable Citizen Input, and Smart Transcription services.
- Provision the agency's CommandCentral Administrator.

#### *Customer Responsibilities*

- Identify a CommandCentral System Administrator(s).
- Use the CommandCentral Admin tool to provision the agency's CommandCentral users and permissions.

Motorola Deliverables
<ul style="list-style-type: none"><li>• Configure and provision the Agency initial CommandCentral Administrator(s) profile.</li><li>• Enable Citizen Input, and Smart Transcription services.</li></ul>

## 5.2.4 Citizen Input, and Smart Transcription Functional Validation Testing

The objective of functional demonstration is to validate activation of the service and Customer access to the CommandCentral features, functions and system integration as defined in the Agreement. The functional demonstration will commence upon the conclusion of CommandCentral Provisioning.

#### *Motorola Responsibilities*

- Conduct functional demonstration.
- Correct any configuration issues impacting access to cloud based features; i.e. map display, location updates, video display and/or interface and integrations.
- Provide Customer instruction on using the Customer Feedback Tool for feature/enhancement requests.

#### *Customer Responsibilities*

- Witness the functional demonstration and acknowledge its completion.
- Resolve any provisioning impacting the functional demonstration.
- Completion Criteria
- Conclusion of the functional demonstration.

### Motorola Deliverables

- Complete functional validation demonstration per cloud service.

## 5.2.5 Citizen Input, and Smart Transcription Training

Citizen Input and Smart Transcription Training is made available via Motorola Solutions Software Enterprise Learning Experience Portal (LXP). This subscription service provides you with continual access to our library of online learning content and allows your users the benefit of learning at times convenient to them. Content is added and updated on a regular basis to keep information current.

### *Motorola Solutions Responsibilities*

- Initial setup Customer LXP administrator.
- Provide instruction to the Customer Administrators on:
  - Adding and maintaining users.
  - Adding and maintaining Groups.
  - Assign courses and Learning Paths.
  - Advise Customer of required/suggested LXP training courses.
  - Encourage to watch the following LXP Administrator and End User courses:
    - Learning eXperience Portal (LXP) Introduction - Course #LXP001
    - LXP Primary Site Administrator Overview - Course #LXP002
    - LXP Group Administration Over - Course #LXP003
    - CommandCentral Citizen Input Review - Course #PSA0278
    - CommandCentral Citizen Input Administration - Course #PSA0279
    - CommandCentral Smart Transcription for VESTA 911 - Course #VST0015
    - CommandCentral Admin - Course #PSA0137

### *Customer Responsibilities*

- Advise users of the availability of the LXP.
- Ensure required LXP training courses are completed.
- Encourage to watch the following LXP Administrator and End User courses:
  - Learning eXperience Portal (LXP) Introduction - Course #LXP001
  - LXP Primary Site Administrator Overview - Course #LXP002

- LXP Group Administration Over - Course #LXP003
- CommandCentral Citizen Input Review - Course #PSA0278
- CommandCentral Citizen Input Administration - Course #PSA0279
- CommandCentral Smart Transcription for VESTA 911 - Course #PSA0293
- CommandCentral Admin - Course #PSA0137

Motorola Deliverables
<ul style="list-style-type: none"><li>• Provide Customer Access to LXP training courses.</li></ul>

## 5.2.6 Citizen Input, and Smart Transcription Transition to Support

Following the completion of the activation of Citizen Input and Smart Transcription, the Customer's solution transitions to support. Hybrid solutions like CommandCentral Citizen Input and CommandCentral Smart Transcription require a new support model. They offer agencies the best of the best - continued investment in their on-premise solutions and new functionality via the cloud to better serve their communities.

Problem resolution begins with Motorola Solutions' Network & Security Operations Center (NSOC) to understand the entire event data flow from the VESTA 9-1-1 console into the Motorola Solutions cloud. There are multi-team triage groups created at the time of the incident (24/7) to check all aspects of the hybrid cloud architecture and services running to maintain functional continuity and performance. Additionally, there are many alarms and monitoring tools that allow MSI to proactively avoid interruptions of service. The chart below outlines the support responsibilities for the Channel Partner and Motorola Solutions.

The additive/over-the-top applications, CommandCentral Smart Transcription and Citizen Input, for the VESTA 9-1-1 Emergency Call Handling core solution are considered to be secondary features that do not impact the main call taking/call processing functionality of the VESTA 9-1-1 system. Due to this fact, customer support tickets for these applications will be addressed by MSI Support 8x5 Monday-Friday. Any core call handling features (ANI/ALI, call processing, etc). as well as location mapping, are still considered mission critical core features and will be handled 24x7x365, per existing VESTA ECH 9-1-1 support processes.

**Note:** Customers will be notified via email of planned and unplanned service interruptions and/or outages to cloud-based components.

### Motorola Solutions Responsibilities

- Transition Customer to Motorola Solutions Customer Support.

### Customer Responsibilities

- Provide Motorola Solutions with specific contact information for those users authorized to engage Motorola Solutions' support.

- Engage the Motorola Solutions support organization as needed by either by phone at 1-800-MSI-HELP (option x4, x4, x3) or by emailing [support-commandcentral@motorolasolutions.com](mailto:support-commandcentral@motorolasolutions.com).

## Section 6

# Optional Statement of Work – Cybersecurity for VESTA 9-1-1

In accordance with the terms and conditions of the Agreement, this Statement of Work (SOW), including all of its subsections and attachments, defines the principal activities and responsibilities of all parties for the delivery of Motorola Solutions (“Motorola”) cybersecurity services as presented in this proposal to Columbia County 911 (hereinafter referred to as “Customer”).

## 6.1 VESTA Managed Detection and Response

Motorola will provide cybersecurity monitoring continuously 24x7x365, and respond to detected events in accordance with the Priority Level Definitions and Response Times section.

### *Inclusions*

Cybersecurity Monitoring provides Intrusion Detection System monitoring for traffic across the entire on-premises VESTA 9-1-1 system. Only select VESTA 9-1-1 on-premises system components support Log Collection / Analytics.

### *Motorola Responsibilities*

- Provide, maintain, and when necessary, replace hardware and software required to monitor VESTA 9-1-1 system elements. This includes the ActiveEye Remote Security Sensors (AERSS) and all software operating on it.
- Coordinate with the Customer to maintain authentication credentials where necessary.
- Coordinate with the Customer on any system changes necessary to integrate the AERSS into the system and establish necessary connectivity.
- Maintain trained and accredited technicians.
- Monitor the Customer’s system 24x7x365 for malicious or unusual activity.
- Respond to cybersecurity incidents in the Customer’s system in accordance with the section, Priority Level Definitions and Response Times.
- Work with the Customer to ensure that all devices within the system that support logging have properly configured Syslog which is forwarding events to the AERSS.

### *Customer Responsibilities*

- VESTA Managed Detection and Response requires a connection from the Customer’s system to Motorola’s NSOC and to the Internet. Establish connectivity with sufficient bandwidth before service commences.
- Allow Motorola continuous remote access to monitor the system. This includes keeping the connection plugged-in, providing passwords, and working with Motorola to understand and maintain proper privileges.

- Provide continuous utility service to any Motorola equipment installed or used at the Customer's premises to support delivery of this service.
- Provide Customer contact information necessary to complete the Customer Support Plan.
- Provide Motorola-dispatched field service technicians with physical access to service equipment when required.
- Comply with the terms of the applicable license agreements between Customer and the non-Motorola software copyright owners.
- Cooperate with Motorola and perform all acts that are reasonable or necessary to enable Motorola to provide the services described in this SOW.

### 6.1.1 Cybersecurity Incidents

VESTA Managed Detection and Response excludes services to perform physical containment and/or remediation of confirmed cybersecurity incidents, remote or onsite. The Customer may choose to purchase additional Incident Response professional services to assist in the creation of and/or execution of a Customer's Incident Response Plan.

A "Cybersecurity Incident" is defined as an observable event that Motorola Security Analysts have identified that actually or potentially jeopardizes the confidentiality, integrity, or availability of the system. Examples include ransomware or malicious use of PowerShell.

#### *Motorola Responsibilities*

- Upon the identification of a Cybersecurity Incident, notify Customer's documented contact and escalation plan.
- Take documented customer approved actions in an attempt to contain a Cybersecurity Incident to the extent enabled via Motorola Managed technology. Communicate to Customer what additional potential containment actions and incident response resources can be taken across Customer managed IT infrastructure.
- Perform investigation using the VESTA Managed Detection and Response integrated and enabled data sources in an initial attempt to determine the extent of a Cybersecurity Incident.
- Document and share Indicators of Compromise and artifacts discovered during investigation. Motorola will not perform on site data collection or official forensic capture activities on physical devices.
- Reasonably liaise with Customer's Incident Response resources as a result of the Cybersecurity Incident supporting any service provider that is performing incident response and/or remediation related to the Cybersecurity Incident.

#### *Customer Responsibilities*

- Maintain one named Point of Contact (POC) to coordinate regular team discussions and organize data collection and capture across the Customer and Motorola teams.
- If required, contract for Incident Response service provider to perform procedures beyond the scope of the VESTA Managed Detection and Response service such as forensic data capture, additional malware removal, system recovery, ransomware payment negotiation, law enforcement engagement, insurance provider communications, identify patient zero, etc.

## 6.1.2 Priority Level Definitions and Response Times

Incident Priority	Incident Definition	Response Times
Critical P1	Security incidents that have caused, or are suspected of causing significant and/or widespread damage to the functionality of or information stored within the system. Efforts to recover from the incident may be significant. Examples: <ul style="list-style-type: none"> <li>Malware that is not quarantined by anti-virus</li> <li>Evidence of communication with suspected malicious actors</li> </ul>	Response provided 24 hours, 7 days a week, including US Holidays.
High P2	Security incidents that have localized impact, but have the potential to become more serious if not quickly addressed. Effort to recover from the incident may be moderate to significant. Examples: <ul style="list-style-type: none"> <li>Malware that is quarantined by anti-virus</li> <li>Multiple behaviors observed in the system that are consistent with known attacker techniques</li> </ul>	Response provided 24 hours, 7 days a week, including US Holidays.
Medium P3	Security incidents potentially indicative of an attacker performing reconnaissance or initial attempts at accessing the system. Effort to recover from the incident may be low to moderate. Examples include: <ul style="list-style-type: none"> <li>Suspected unauthorized attempts to log into user accounts</li> <li>Suspected unauthorized changes to system configurations (firewalls, user accounts, etc.)</li> <li>Observed failures of security components</li> </ul>	Response provided 8 x 5 on standard business days, which is normally Monday through Friday 8AM to 5PM local time, excluding US Holidays.
Low P4	These are typically informational in nature or are service requests from the Customer. Examples include: <ul style="list-style-type: none"> <li>User account creation or deletion</li> <li>Privilege change for existing accounts</li> </ul>	Response provided 8 x 5 on standard business days, which is normally Monday through Friday 8AM to 5PM local time, excluding US Holidays.

## 6.2 Scope Limitations & Clarifications

### Service Limitations

Cybersecurity services are inherently limited and will not guarantee that the Customer's system will be error-free or immune to security breaches as a result of any or all of the services described in this proposal. Motorola does not warrant or guarantee that this service will identify all cybersecurity incidents that occur in the Customer's system. Services and deliverables are limited by, among other things, the evolving and often malicious nature of cyber threats, conduct/attacks, as well as the complexity/disparity and evolving nature of Customer computer system environments, including supply chains, integrated software, services, and devices.

### *Processing of Customer Data in the United States and/or other Locations*

Customer understands and agrees that data obtained, accessed or utilized in the performance of the services may be transmitted to, accessed, monitored, and/or otherwise processed by Motorola in the United States (US) and/or other Motorola operations globally. Customer consents to and authorizes all such processing and agrees to provide, obtain, or post any necessary approvals, consents, or notices that may be necessary to comply with applicable law.

### *Customer and Third-Party Information*

The Customer understands and agrees that Motorola may obtain, use and/or create and use anonymized, aggregated and/or generalized Customer data, such as data relating to actual and potential security threats and vulnerabilities, for its lawful business purposes, including improving its services and sharing and leveraging such information for the benefit of Customer, other customers, and other interested parties. For purposes of this engagement, so long as not specifically identifying the Customer, Customer Data shall not include, and Motorola shall be free to use, share and leverage security threat intelligence and mitigation data generally, including without limitation, third party threat vectors and IP addresses, file hash information, domain names, malware signatures and information, information obtained from third party sources, indicators of compromise, and tactics, techniques, and procedures used learned or developed in the course of providing services.

## 8.2 Payment Terms

Total Contract value selected from the above purchase options is\_\_\_\_\_.

Customer will make payments to Motorola within thirty (30) days after the date of each invoice. Customer will make payments when due in the form of a wire transfer, check, or cashier's check from a U.S. financial institution. Motorola reserves the right to make partial shipments of equipment and invoice for partial shipment. Overdue invoices will bear simple interest at the maximum allowable rate.

Motorola Solutions will use the following major milestones of the project for financial billing:

1. 50% of the Contract Price due upon Contract Execution (due upon effective date); and
2. 50% of the Contract Price due upon Final Acceptance.

Motorola reserves the right to make partial shipments of equipment and to request payment upon shipment of such equipment. In addition, Motorola reserves the right to invoice for installations or civil work completed on a site-by-site basis, when applicable.

**For Lifecycle Support Plan and Subscription Based Services: Motorola will invoice Customer annually in advance of each year of the plan.**

Customer affirms that a purchase order or notice to proceed is not required for contract performance or for subsequent years of service, if any, and that sufficient funds have been appropriated in accordance with applicable law. The Customer will pay all invoices as received from Motorola and any changes in scope will be subject to the change order process as described in this Agreement. At the time of execution of this Agreement, the Customer will provide all necessary reference information to include on invoices for payment in accordance with this Agreement.

**Section 9**

# Motorola Solutions Customer Agreement

## H-GAC Motorola Solutions Customer Agreement

This Motorola Solutions Customer Agreement (the “**MCA**”) is entered into between Motorola Solutions, Inc., with offices at 500 W. Monroe Street, Suite 4400, Chicago, IL 60661 (“**Motorola**”) and the entity set forth in the signature block below (“**Customer**”). Motorola and Customer will each be referred to herein as a “**Party**” and collectively as the “**Parties**”. This Agreement (as defined below) is effective as of the date of the last signature (the “**Effective Date**”).

WHEREAS, the Customer desires to purchase communications products and services; and

WHEREAS, Motorola desires to sell communications products and services to Customer; and

WHEREAS, Houston-Galveston Area Council (“H-GAC”), acting as the agent for various local governmental entities who are “End Users” under interlocal agreements (including the Customer) has solicited proposals for radio communications equipment and conducted discussions with Motorola concerning its proposal and, where applicable, in accordance with the competitive procurement procedures of Texas law; and

WHEREAS, H-GAC and Motorola entered into that certain Contract No. EC07-20 executed on January 29, 2021, (the “H-GAC Contract”), which provided that End Users may purchase communications products and services from Motorola pursuant to certain terms contained therein;

WHEREAS, pursuant to Articles 2 and 6 of the Special Provisions of the H-GAC Contract, Motorola and Customer now wish to enter into this Agreement to delineate the specific terms of the purchase of communications products and services from Motorola by the Customer. For good and valuable consideration, the Parties agree as follows:

### 1. **Agreement.**

**1.1. Scope; Agreement Documents.** This MCA governs Customer’s purchase of Products (as defined below) and Services (as defined below) from Motorola. The H-GAC Contract, as amended, is attached hereto as Exhibit A and is incorporated into this Agreement in full by this reference. Additional terms and conditions applicable to specific Products and Services are set forth in one or more addenda attached to this MCA (each an “**Addendum**”, and collectively the “**Addenda**”). In addition, the Parties may agree upon solution descriptions, equipment lists, statements of work, schedules, technical specifications, and other ordering documents setting forth the Products and Services to be purchased by Customer and provided by Motorola and additional rights and obligations of the Parties (the “**Ordering Documents**”). To the extent required by applicable procurement law, a proposal submitted by Motorola in response to a competitive procurement process will be included within the meaning of the term Ordering Documents. This MCA, its exhibit, the Addenda, and any Ordering Documents collectively form the Parties’ “**Agreement**”.

**1.2. Order of Precedence.** In interpreting this Agreement and resolving any ambiguities, Exhibit A shall prevail over this entire Agreement in the event of a conflict. Each Addendum will control with respect to conflicting terms in the MCA, but only as applicable to the Products and Services described in such Addendum. Each Ordering Document will control with respect to conflicting terms in the MCA or any Addenda, but only as applicable to the Products and Services described on such Ordering Document.

## 2. Products and Services.

**2.1. Products.** Motorola will (a) sell hardware provided by Motorola ("**Equipment**"), (b) license software which is either preinstalled on Equipment or installed on Customer-Provided Equipment (as defined below) and licensed to Customer by Motorola for a perpetual or other defined license term ("**Licensed Software**"), and (c) license cloud-based software as a service products and other software which is either preinstalled on Equipment or installed on Customer-Provided Equipment, but licensed to Customer by Motorola on a subscription basis ("**Subscription Software**") to Customer, to the extent each is set forth in an Ordering Document, for Customer's own use in accordance with this Agreement. The Equipment, Licensed Software, and Subscription Software shall collectively be referred to herein as "**Products**", or individually as a "**Product**". At any time during the Term (as defined below), Motorola may substitute any Products at no cost to Customer, if the substitute is substantially similar to the Products set forth in the applicable Ordering Documents.

### 2.2. Services.

2.2.1. Motorola will provide services related to purchased Products ("**Services**"), to the extent set forth in an Ordering Document.

2.2.2. Integration Services; Maintenance and Support Services. If specified in an Ordering Document, Motorola will provide, for the term of such Ordering Document, (a) design, deployment, and integration Services in order to design, install, set up, configure, and/or integrate the applicable Products at the applicable locations ("**Sites**"), agreed upon by the Parties ("**Integration Services**"), or (b) break/fix maintenance, technical support, or other Services (such as software integration Services) ("**Maintenance and Support Services**"), each as further described in the applicable statement of work. Maintenance and Support Services and Integration Services will each be considered "Services", as defined above.

2.2.3. Service Ordering Documents. The Fees for Services will be set forth in an Ordering Document and any applicable project schedules. A Customer point of contact will be set forth in the applicable statement of work for the Services. For purposes of clarity, each statement of work will be incorporated into, and form an integral part of, the Agreement.

2.2.4. Service Completion. Unless otherwise specified in the applicable Ordering Document, Services described in an Ordering Document will be deemed complete upon Motorola's performance of all Services listed in such Ordering Document ("**Service Completion Date**"); provided, however, that Maintenance and Support Services may be offered on an ongoing basis during a given Ordering Document term, in which case such Maintenance and Support Services will conclude upon the expiration or termination of such Ordering Document.

**2.3. Non-Preclusion.** If, in connection with the Products and Services provided under this Agreement, Motorola makes recommendations, including a recommendation to purchase other products or services, nothing in this Agreement precludes Motorola from participating in a future competitive bidding process or otherwise offering or selling the recommended products or other services to Customer. Customer represents that this paragraph does not violate its procurement standards or other laws, regulations, or policies.

**2.4. Customer Obligations.** Customer will ensure that information Customer provides to Motorola in connection with receipt of Products and Services are accurate and complete in all material respects. Customer will make timely decisions and obtain any required management approvals that are reasonably necessary for Motorola to provide the Products and Services and perform its other duties under this Agreement. Unless the applicable Ordering Document states otherwise, Motorola may rely upon and is not required to evaluate, confirm, reject, modify, or provide advice concerning any assumptions or Customer information, decisions, or approvals described in this Section. If any assumptions in the Ordering Documents or information provided by Customer prove to be incorrect, or if Customer fails to perform any of its obligations under this Agreement, Motorola's ability to perform its obligations may be impacted and changes to the Agreement, including the scope, Fees, and performance schedule may be required.

**2.5. Documentation.** Products and Services may be delivered with documentation for the Equipment, software Products, or data that specifies technical and performance features, capabilities, users, or operation, including training manuals, and other deliverables, such as reports, specifications, designs, plans, drawings, analytics, or other information (collectively, "**Documentation**"). Documentation is and will be owned by Motorola, unless otherwise expressly agreed in an Addendum or Ordering Document that certain Documentation will be owned by Customer. Motorola hereby grants Customer a limited, royalty-free, worldwide, non-exclusive license to use the Documentation solely for its internal business purposes in connection with the Products and Services.

**2.6. Motorola Tools and Equipment.** As part of delivering the Products and Services, Motorola may provide certain tools, equipment, models, and other materials of its own. Such tools and equipment will remain the sole property of Motorola unless they are to be purchased by Customer as Products and are explicitly listed on an Ordering Document. The tools and equipment may be held by Customer for Motorola's use without charge and may be removed from Customer's premises by Motorola at any time without restriction. Customer will safeguard all tools and equipment while in Customer's custody or control, and be liable for any loss or damage. Upon the expiration or earlier termination of this Agreement, Customer, at its expense, will return to Motorola all tools and equipment in its possession or control.

**2.7. Authorized Users.** Customer will ensure its employees and Authorized Users comply with the terms of this Agreement and will be liable for all acts and omissions of its employees and Authorized Users. Customer is responsible for the secure management of Authorized Users' names, passwords and login credentials for access to Products and Services. "**Authorized Users**" are Customer's employees, full-time contractors engaged for the purpose of supporting the Products and Services that are not competitors of Motorola, and the entities (if any) specified in an Ordering Document or otherwise approved by Motorola in writing (email from an authorized Motorola signatory accepted), which may include affiliates or other Customer agencies.

**2.8. Export Control.** Customer, its employees, and any other Authorized Users will not access or use the Products and Services in any jurisdiction in which the provision of such Products and Services is prohibited under applicable laws or regulations (a "**Prohibited Jurisdiction**"), and Customer will not provide access to the Products and Services to any government, entity, or individual located in a Prohibited Jurisdiction. Customer represents and warrants that (a) it and its Authorized Users are not named on any U.S. government list of persons prohibited from receiving U.S. exports, or transacting with any U.S. person; (b) it and its Authorized Users are not a national of, or a company registered in, any Prohibited Jurisdiction; (c) Customer will not permit its Authorized Users to access or use the Products or Services in

violation of any U.S. or other applicable export embargoes, prohibitions or restrictions; and (d) Customer and its Authorized Users will comply with all applicable laws regarding the transmission of technical data exported from the U.S. and the country in which Customer, its employees, and the Authorized Users are located.

**2.9. Change Orders.** Unless a different change control process is agreed upon in writing by the Parties, a Party may request changes to an Addendum or an Ordering Document by submitting a change order to the other Party (each, a “**Change Order**”). If a requested change in a Change Order causes an increase or decrease in the Products or Services, the Parties by means of the Change Order will make appropriate adjustments to the Fees, project schedule, or other matters. Change Orders are effective and binding on the Parties only upon execution of the Change Order by an authorized representative of both Parties.

### **3. Term and Termination.**

**3.1. Term.** The term of this MCA (“**Term**”) will commence on the Effective Date and continue until six (6) months after the later of (a) the termination, expiration, or discontinuance of services under the last Ordering Document in effect, or (b) the expiration of all applicable warranty periods, unless the MCA is earlier terminated as set forth herein. The applicable Addendum or Ordering Document will set forth the term for the Products and Services governed thereby.

**3.2. Termination.** Either Party may terminate the Agreement or the applicable Addendum or Ordering Document if the other Party breaches a material obligation under the Agreement and does not cure such breach within thirty (30) days after receipt of notice of the breach or fails to produce a cure plan within such period of time. Each Addendum and Ordering Document may be separately terminable as set forth therein.

**3.3. Suspension of Services.** Motorola may terminate or suspend any Products or Services under an Ordering Document if Motorola determines: (a) the related Product license has expired or has terminated for any reason; (b) the applicable Product is being used on a hardware platform, operating system, or version not approved by Motorola; (c) Customer fails to make any payments when due; or (d) Customer fails to comply with any of its other obligations or otherwise delays Motorola’s ability to perform.

**3.4. Effect of Termination or Expiration.** Upon termination for any reason or expiration of this Agreement, an Addendum, or an Ordering Document, Customer and the Authorized Users will return or destroy (at Motorola’s option) all Motorola Materials and Motorola’s Confidential Information in their possession or control and, as applicable, provide proof of such destruction, except that Equipment purchased by Customer should not be returned. If Customer has any outstanding payment obligations under this Agreement, Motorola may accelerate and declare all such obligations of Customer immediately due and payable by Customer. Notwithstanding the reason for termination or expiration, Customer must pay Motorola for Products and Services already delivered. Customer has a duty to mitigate any damages under this Agreement, including in the event of default by Motorola and Customer’s termination of this Agreement.

### **4. Payment and Invoicing.**

**4.1. Fees.** Fees and charges applicable to the Products and Services (the “**Fees**”) will be as set forth in the applicable Addendum or Ordering Document, and such Fees may be changed by Motorola at any time, except that Motorola will not change the Fees for Products and Services purchased by Customer during the term of an active Ordering Document or during a Subscription Term (as defined and further described in the applicable Addendum). The fees and charges include the H-GAC administrative fee. Motorola will pay H-GAC’s administrative

fee in accordance with the payment terms of the H-GAC Contract. Changes in the scope of Services described in an Ordering Document may require an adjustment to the Fees due under such Ordering Document. If a specific invoicing or payment schedule is set forth in the applicable Addendum or Ordering Document, such schedule will apply solely with respect to such Addendum or Ordering Document. Unless otherwise specified in the applicable Ordering Document, the Fees for any Services exclude expenses associated with unusual and costly Site access requirements (e.g., if Site access requires a helicopter or other equipment), and Customer will reimburse Motorola for these or other expenses incurred by Motorola in connection with the Services.

**4.2. Taxes.** The Fees do not include any excise, sales, lease, use, property, or other taxes, assessments, duties, or regulatory charges or contribution requirements (collectively, “**Taxes**”), all of which will be paid by Customer, except as exempt by law, unless otherwise specified in an Ordering Document. If Motorola is required to pay any Taxes, Customer will reimburse Motorola for such Taxes (including any interest and penalties) within thirty (30) days after Customer’s receipt of an invoice therefore. Customer will be solely responsible for reporting the Products for personal property tax purposes, and Motorola will be solely responsible for reporting taxes on its income and net worth.

**4.3. Invoicing.** Motorola will invoice Customer at the frequency set forth in the applicable Addendum or Ordering Document, and Customer will pay all invoices within thirty (30) days of the invoice date or as otherwise specified in the applicable Addendum or Ordering Document. Late payments will be subject to interest charges at the maximum rate permitted by law, commencing upon the due date. Motorola may invoice electronically via email, and Customer agrees to receive invoices via email at the email address set forth in an Ordering Document. Customer acknowledges and agrees that a purchase order or other notice to proceed is not required for payment for Products or Services.

## **5. Sites; Customer-Provided Equipment; Non-Motorola Content.**

**5.1. Access to Sites.** Customer will be responsible for providing all necessary permits, licenses, and other approvals necessary for the installation and use of the Products and the performance of the Services at each applicable Site, including for Motorola to perform its obligations hereunder, and for facilitating Motorola’s access to the Sites. No waivers of liability will be imposed on Motorola or its subcontractors by Customer or others at Customer facilities or other Sites, but if and to the extent any such waivers are imposed, the Parties agree such waivers are void.

**5.2. Site Conditions.** Customer will ensure that (a) all Sites are safe and secure, (b) Site conditions meet all applicable industry and legal standards (including standards promulgated by OSHA or other governmental or regulatory bodies), (c) to the extent applicable, Sites have adequate physical space, air conditioning, and other environmental conditions, electrical power outlets, distribution, equipment, connections, and telephone or other communication lines (including modem access and interfacing networking capabilities), and (d) Sites are suitable for the installation, use, and maintenance of the Products and Services. This Agreement is predicated upon normal soil conditions as defined by the version of E.I.A. standard RS-222 in effect on the Effective Date.

**5.3. Site Issues.** Upon reasonable advanced written notice to Customer, Motorola will have the right to inspect the Sites and advise Customer of any deficiencies or non-conformities with the requirements of this **Section 5 – Sites; Customer-Provided Equipment; Non-Motorola Content**. If Motorola or Customer identifies any deficiencies or non-conformities, Customer will promptly remediate such issues or the Parties will select a replacement Site. If a Party

determines that a Site identified in an Ordering Document is not acceptable or desired, the Parties will cooperate to investigate the conditions and select a replacement Site or otherwise adjust the installation plans and specifications as necessary. A change in Site or adjustment to the installation plans and specifications may cause a change in the Fees or performance schedule under the applicable Ordering Document.

**5.4. Customer-Provided Equipment.** Certain components, including equipment and software, not provided by Motorola may be required for use of the Products and Services (“**Customer-Provided Equipment**”). Customer will be responsible, at its sole cost and expense, for providing and maintaining the Customer-Provided Equipment in good working order. Customer represents and warrants that it has all rights in Customer-Provided Equipment to permit Motorola to access and use the applicable Customer-Provided Equipment to provide the Products and Services under this Agreement, and such access and use will not violate any laws or infringe any third-party rights (including intellectual property rights). Customer (and not Motorola) will be fully liable for Customer-Provided Equipment, and Customer will immediately notify Motorola of any Customer-Provided Equipment damage, loss, change, or theft that may impact Motorola’s ability to provide the Products and Services under this Agreement, and Customer acknowledges that any such events may cause a change in the Fees or performance schedule under the applicable Ordering Document.

**5.5. Non-Motorola Content.** In certain instances, Customer may be permitted to access, use, or integrate Customer or third-party software, services, content, and data that is not provided by Motorola (collectively, “**Non-Motorola Content**”) with or through the Products and Services. If Customer accesses, uses, or integrates any Non-Motorola Content with the Products or Services, Customer will first obtain all necessary rights and licenses to permit Customer’s and its Authorized Users’ use of the Non-Motorola Content in connection with the Products and Services. Customer will also obtain the necessary rights for Motorola to use such Non-Motorola Content in connection with providing the Products and Services, including the right for Motorola to access, store, and process such Non-Motorola Content (e.g., in connection with Subscription Software), and to otherwise enable interoperation with the Products and Services. Customer represents and warrants that it will obtain the foregoing rights and licenses prior to accessing, using, or integrating the applicable Non-Motorola Content with the Products and Services, and that Customer and its Authorized Users will comply with any terms and conditions applicable to such Non-Motorola Content. If any Non-Motorola Content require access to Customer Data (as defined below), Customer hereby authorizes Motorola to allow the provider of such Non-Motorola Content to access Customer Data, in connection with the interoperation of such Non-Motorola Content with the Products and Services. Customer acknowledges and agrees that Motorola is not responsible for, and makes no representations or warranties with respect to, the Non-Motorola Content (including any disclosure, modification, or deletion of Customer Data resulting from use of Non-Motorola Content or failure to properly interoperate with the Products and Services). If Customer receives notice that any Non-Motorola Content must be removed, modified, or disabled within the Products or Services, Customer will promptly do so. Motorola will have the right to disable or remove Non-Motorola Content if Motorola believes a violation of law, third-party rights, or Motorola’s policies is likely to occur, or if such Non-Motorola Content poses or may pose a security or other risk or adverse impact to the Products or Services, Motorola, Motorola’s systems, or any third party (including other Motorola customers). Nothing in this Section will limit the exclusions set forth in **Section 7.2 – Intellectual Property Infringement**.

## **6. Representations and Warranties.**

**6.1. Mutual Representations and Warranties.** Each Party represents and warrants to the other Party that (a) it has the right to enter into the Agreement and perform its obligations hereunder, and (b) the Agreement will be binding on such Party.

**6.2. Motorola Warranties.** Subject to the disclaimers and exclusions below, Motorola represents and warrants that (a) Services will be provided in a good and workmanlike manner and will conform in all material respects to the descriptions in the applicable Ordering Document; and (b) for a period of ninety (90) days commencing upon the Service Completion Date for one-time Services, the Services will be free of material defects in materials and workmanship. Other than as set forth in subsection (a) above, recurring Services are not warranted but rather will be subject to the requirements of the applicable Addendum or Ordering Document. Motorola provides other express warranties for Motorola-manufactured Equipment, Motorola-owned software Products, and certain Services. Such express warranties are included in the applicable Addendum or Ordering Document. Such representations and warranties will apply only to the applicable Product or Service that is the subject of such Addendum or Ordering Document.

**6.3. Warranty Claims; Remedies.** To assert a warranty claim, Customer must notify Motorola in writing of the claim prior to the expiration of any warranty period set forth in this MCA or the applicable Addendum or Ordering Document. Unless a different remedy is otherwise expressly set forth for a particular warranty under an Addendum, upon receipt of such claim, Motorola will investigate the claim and use commercially reasonable efforts to repair or replace any confirmed materially non-conforming Product or re-perform any non-conforming Service, at its option. Such remedies are Customer's sole and exclusive remedies for Motorola's breach of a warranty. Motorola's warranties are extended by Motorola to Customer only, and are not assignable or transferrable.

**6.4. Pass-Through Warranties.** Notwithstanding any provision of this Agreement to the contrary, Motorola will have no liability for third-party software or hardware provided by Motorola; provided, however, that to the extent offered by third-party providers of software or hardware and to the extent permitted by law, Motorola will pass through express warranties provided by such third parties.

**6.5. WARRANTY DISCLAIMER.** EXCEPT FOR THE EXPRESS AND PASS THROUGH WARRANTIES IN THIS AGREEMENT, PRODUCTS AND SERVICES PURCHASED HEREUNDER ARE PROVIDED "AS IS" AND WITH ALL FAULTS. WARRANTIES SET FORTH IN THE AGREEMENT ARE THE COMPLETE WARRANTIES FOR THE PRODUCTS AND SERVICES AND MOTOROLA DISCLAIMS ALL OTHER WARRANTIES OR CONDITIONS, EXPRESS OR IMPLIED, INCLUDING IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, TITLE, AND QUALITY. MOTOROLA DOES NOT REPRESENT OR WARRANT THAT USE OF THE PRODUCTS AND SERVICES WILL BE UNINTERRUPTED, ERROR-FREE, OR FREE OF SECURITY VULNERABILITIES, OR THAT THEY WILL MEET CUSTOMER'S PARTICULAR REQUIREMENTS.

## **7. Indemnification.**

**7.1. General Indemnity.** Motorola will defend, indemnify, and hold Customer harmless from and against any and all damages, losses, liabilities, and expenses (including reasonable fees and expenses of attorneys) arising from any actual third-party claim, demand, action, or proceeding ("**Claim**") for personal injury, death, or direct damage to tangible property to the extent caused by Motorola's negligence, gross negligence or willful misconduct while performing its duties under an Ordering Document or an Addendum, except to the extent the claim arises from Customer's negligence or willful misconduct. Motorola's duties under this **Section 7.1 –**

**General Indemnity** are conditioned upon: (a) Customer promptly notifying Motorola in writing of the Claim; (b) Motorola having sole control of the defense of the suit and all negotiations for its settlement or compromise; and (c) Customer cooperating with Motorola and, if requested by Motorola, providing reasonable assistance in the defense of the Claim.

**7.2. Intellectual Property Infringement.** Motorola will defend Customer against any third-party claim alleging that a Motorola-developed or manufactured Product or Service (the “**Infringing Product**”) directly infringes a United States patent or copyright (“**Infringement Claim**”), and Motorola will pay all damages finally awarded against Customer by a court of competent jurisdiction for an Infringement Claim, or agreed to in writing by Motorola in settlement of an Infringement Claim. Motorola’s duties under this **Section 7.2 – Intellectual Property Infringement** are conditioned upon: (a) Customer promptly notifying Motorola in writing of the Infringement Claim; (b) Motorola having sole control of the defense of the suit and all negotiations for its settlement or compromise; and (c) Customer cooperating with Motorola and, if requested by Motorola, providing reasonable assistance in the defense of the Infringement Claim.

7.2.1. If an Infringement Claim occurs, or in Motorola’s opinion is likely to occur, Motorola may at its option and expense: (a) procure for Customer the right to continue using the Infringing Product; (b) replace or modify the Infringing Product so that it becomes non-infringing; or (c) grant Customer (i) a pro-rated refund of any amounts pre-paid for the Infringing Product (if the Infringing Product is a software Product, i.e., Licensed Software or Subscription Software) or (ii) a credit for the Infringing Product, less a reasonable charge for depreciation (if the Infringing Product is Equipment, including Equipment with embedded software).

7.2.2. In addition to the other damages disclaimed under this Agreement, Motorola will have no duty to defend or indemnify Customer for any Infringement Claim that arises from or is based upon: (a) Customer Data, Customer-Provided Equipment, Non-Motorola Content, or third-party equipment, hardware, software, data, or other third-party materials; (b) the combination of the Product or Service with any products or materials not provided by Motorola; (c) a Product or Service designed, modified, or manufactured in accordance with Customer’s designs, specifications, guidelines or instructions; (d) a modification of the Product or Service by a party other than Motorola; (e) use of the Product or Service in a manner for which the Product or Service was not designed or that is inconsistent with the terms of this Agreement; or (f) the failure by Customer to use or install an update to the Product or Service that is intended to correct the claimed infringement. In no event will Motorola’s liability resulting from an Infringement Claim extend in any way to any payments due on a royalty basis, other than a reasonable royalty based upon revenue derived by Motorola from Customer from sales or license of the Infringing Product.

7.2.3. This **Section 7.2 – Intellectual Property Infringement** provides Customer’s sole and exclusive remedies and Motorola’s entire liability in the event of an Infringement Claim. For clarity, the rights and remedies provided in this Section are subject to, and limited by, the restrictions set forth in **Section 8 – Limitation of Liability** below.

**7.3. Customer Indemnity.** Customer will defend, indemnify, and hold Motorola and its subcontractors, subsidiaries and other affiliates harmless from and against any and all damages, losses, liabilities, and expenses (including reasonable fees and expenses of attorneys) arising from any actual or threatened third-party claim, demand, action, or proceeding

arising from or related to (a) Customer-Provided Equipment, Customer Data, or Non-Motorola Content, including any claim, demand, action, or proceeding alleging that any such equipment, data, or materials (or the integration or use thereof with the Products and Services) infringes or misappropriates a third-party intellectual property or other right, violates applicable law, or breaches the Agreement; (b) Customer-Provided Equipment's failure to meet the minimum requirements set forth in the applicable Documentation or match the applicable specifications provided to Motorola by Customer in connection with the Products or Services; (c) Customer's (or its service providers, agents, employees, or Authorized User's) negligence or willful misconduct; and (d) Customer's or its Authorized User's breach of this Agreement. This indemnity will not apply to the extent any such claim is caused by Motorola's use of Customer-Provided Equipment, Customer Data, or Non-Motorola Content in violation of the Agreement. Motorola will give Customer prompt, written notice of any claim subject to the foregoing indemnity. Motorola will, at its own expense, cooperate with Customer in its defense or settlement of the claim.

## **8. Limitation of Liability.**

**8.1. DISCLAIMER OF CONSEQUENTIAL DAMAGES.** EXCEPT FOR PERSONAL INJURY OR DEATH, MOTOROLA, ITS AFFILIATES, AND ITS AND THEIR RESPECTIVE OFFICERS, DIRECTORS, EMPLOYEES, SUBCONTRACTORS, AGENTS, SUCCESSORS, AND ASSIGNS (COLLECTIVELY, THE "**MOTOROLA PARTIES**") WILL NOT BE LIABLE IN CONNECTION WITH THIS AGREEMENT (WHETHER UNDER MOTOROLA'S INDEMNITY OBLIGATIONS, A CAUSE OF ACTION FOR BREACH OF CONTRACT, UNDER TORT THEORY, OR OTHERWISE) FOR ANY INDIRECT, INCIDENTAL, SPECIAL, EXEMPLARY, PUNITIVE, OR CONSEQUENTIAL DAMAGES OR DAMAGES FOR LOST PROFITS OR REVENUES, EVEN IF MOTOROLA HAS BEEN ADVISED BY CUSTOMER OR ANY THIRD PARTY OF THE POSSIBILITY OF SUCH DAMAGES OR LOSSES AND WHETHER OR NOT SUCH DAMAGES OR LOSSES ARE FORESEEABLE.

**8.2. DIRECT DAMAGES.** EXCEPT FOR PERSONAL INJURY OR DEATH, THE TOTAL AGGREGATE LIABILITY OF THE MOTOROLA PARTIES, WHETHER BASED ON A CLAIM IN CONTRACT OR IN TORT, LAW OR EQUITY, RELATING TO OR ARISING OUT OF THE AGREEMENT WILL NOT EXCEED THE FEES SET FORTH IN THE ORDERING DOCUMENT UNDER WHICH THE CLAIM AROSE. NOTWITHSTANDING THE FOREGOING, FOR ANY SUBSCRIPTION SOFTWARE OR FOR ANY RECURRING SERVICES, THE MOTOROLA PARTIES' TOTAL LIABILITY FOR ALL CLAIMS RELATED TO SUCH PRODUCT OR RECURRING SERVICES IN THE AGGREGATE WILL NOT EXCEED THE TOTAL FEES PAID FOR SUCH SUBSCRIPTION SOFTWARE OR RECURRING SERVICE, AS APPLICABLE, DURING THE CONSECUTIVE TWELVE (12) MONTH PERIOD IMMEDIATELY PRECEDING THE EVENT FROM WHICH THE FIRST CLAIM AROSE.

**8.3. ADDITIONAL EXCLUSIONS.** NOTWITHSTANDING ANY OTHER PROVISION OF THIS AGREEMENT, MOTOROLA WILL HAVE NO LIABILITY FOR DAMAGES ARISING OUT OF (A) CUSTOMER DATA, INCLUDING ITS TRANSMISSION TO MOTOROLA, OR ANY OTHER DATA AVAILABLE THROUGH THE PRODUCTS OR SERVICES; (B) CUSTOMER-PROVIDED EQUIPMENT, NON-MOTOROLA CONTENT, THE SITES, OR THIRD-PARTY EQUIPMENT, HARDWARE, SOFTWARE, DATA, OR OTHER THIRD-PARTY MATERIALS, OR THE COMBINATION OF PRODUCTS AND SERVICES WITH ANY OF THE FOREGOING; (C) LOSS OF DATA OR HACKING; (D) MODIFICATION OF PRODUCTS OR SERVICES BY ANY PERSON OTHER THAN MOTOROLA; (E) RECOMMENDATIONS PROVIDED IN CONNECTION WITH OR BY THE PRODUCTS AND SERVICES; (F) DATA RECOVERY

SERVICES OR DATABASE MODIFICATIONS; OR (G) CUSTOMER'S OR ANY AUTHORIZED USER'S BREACH OF THIS AGREEMENT OR MISUSE OF THE PRODUCTS AND SERVICES.

**8.4. Voluntary Remedies.** Motorola is not obligated to remedy, repair, replace, or refund the purchase price for the disclaimed issues in **Section 8.3 – Additional Exclusions** above, but if Motorola agrees to provide Services to help resolve such issues, Customer will reimburse Motorola for its reasonable time and expenses, including by paying Motorola any Fees set forth in an Ordering Document for such Services, if applicable.

**8.5. Statute of Limitations.** Customer may not bring any claims against a Motorola Party in connection with this Agreement or the Products and Services more than one (1) year after the date of accrual of the cause of action.

## **9. Confidentiality.**

**9.1. Confidential Information.** “**Confidential Information**” means any and all non-public information provided by one Party (“**Discloser**”) to the other (“**Recipient**”) that is disclosed under this Agreement in oral, written, graphic, machine recognizable, or sample form, being clearly designated, labeled or marked as confidential or its equivalent or that a reasonable businessperson would consider non-public and confidential by its nature. With respect to Motorola, Confidential Information will also include Products and Services, and Documentation, as well as any other information relating to the Products and Services. The nature and existence of this Agreement are considered Confidential Information of the Parties. In order to be considered Confidential Information, information that is disclosed orally must be identified as confidential at the time of disclosure and confirmed by Discloser by submitting a written document to Recipient within thirty (30) days after such disclosure. The written document must contain a summary of the Confidential Information disclosed with enough specificity for identification purpose and must be labeled or marked as confidential or its equivalent.

**9.2. Obligations of Confidentiality.** During the Term and for a period of three (3) years from the expiration or termination of this Agreement, Recipient will (a) not disclose Confidential Information to any third party, except as expressly permitted in this **Section 9 - Confidentiality**; (b) restrict disclosure of Confidential Information to only those employees (including, employees of any wholly owned subsidiary, a parent company, any other wholly owned subsidiaries of the same parent company), agents or consultants who must access the Confidential Information for the purpose of, and who are bound by confidentiality terms substantially similar to those in, this Agreement; (c) not copy, reproduce, reverse engineer, de-compile or disassemble any Confidential Information; (d) use the same degree of care as for its own information of like importance, but at least use reasonable care, in safeguarding against disclosure of Confidential Information; (e) promptly notify Discloser upon discovery of any unauthorized use or disclosure of the Confidential Information and take reasonable steps to regain possession of the Confidential Information and prevent further unauthorized actions or other breach of this Agreement; and (f) only use the Confidential Information as needed to fulfill its obligations and secure its rights under this Agreement.

**9.3. Exceptions.** Recipient is not obligated to maintain as confidential any information that Recipient can demonstrate by documentation (a) is publicly available at the time of disclosure or becomes available to the public without breach of this Agreement; (b) is lawfully obtained from a third party without a duty of confidentiality to Discloser; (c) is otherwise lawfully known to Recipient prior to such disclosure without a duty of confidentiality to Discloser; or (d) is independently developed by Recipient without the use of, or reference to, any of Discloser's Confidential Information or any breach of this Agreement. Additionally, Recipient may disclose

Confidential Information to the extent required by law, including a judicial or legislative order or proceeding.

**9.4. Ownership of Confidential Information.** All Confidential Information is and will remain the property of Discloser and will not be copied or reproduced without the express written permission of Discloser (including as permitted herein). Within ten (10) days of receipt of Discloser's written request, Recipient will return or destroy all Confidential Information to Discloser along with all copies and portions thereof, or certify in writing that all such Confidential Information has been destroyed. However, Recipient may retain (a) one (1) archival copy of the Confidential Information for use only in case of a dispute concerning this Agreement and (b) Confidential Information that has been automatically stored in accordance with Recipient's standard backup or recordkeeping procedures, provided, however that Recipient will remain subject to the obligations of this Agreement with respect to any Confidential Information retained subject to clauses (a) or (b). No license, express or implied, in the Confidential Information is granted to the Recipient other than to use the Confidential Information in the manner and to the extent authorized by this Agreement. Discloser represents and warrants that it is authorized to disclose any Confidential Information it discloses pursuant to this Agreement.

## **10. Proprietary Rights; Data; Feedback.**

**10.1. Data Definitions.** The following terms will have the stated meanings: "**Customer Contact Data**" means data Motorola collects from Customer, its Authorized Users, and their end users for business contact purposes, including marketing, advertising, licensing and sales purposes; "**Service Use Data**" means data generated by Customer's use of the Products and Services or by Motorola's support of the Products and Services, including personal information, product performance and error information, activity logs and date and time of use; "**Customer Data**" means data, information, and content, including images, text, videos, documents, audio, telemetry, location and structured data base records, provided by, through, or on behalf of Customer, its Authorized Users, and their end users through the use of the Products and Services. Customer Data does not include Customer Contact Data, Service Use Data, or information from publicly available sources or other Third-Party Data or Motorola Data; "**Third-Party Data**" means information obtained by Motorola from publicly available sources or its third party content providers and made available to Customer through the Products or Services; "**Motorola Data**" means data owned or licensed by Motorola; "**Feedback**" means comments or information, in oral or written form, given to Motorola by Customer or Authorized Users, including their end users, in connection with or relating to the Products or Services; and "**Process**" or "**Processing**" means any operation or set of operations which is performed on personal information or on sets of personal information, whether or not by automated means, such as collection, recording, copying, analyzing, caching, organization, structuring, storage, adaptation, or alteration, retrieval, consultation, use, disclosure by transmission, dissemination or otherwise making available, alignment or combination, restriction, erasure or destruction.

**10.2. Motorola Materials.** Customer acknowledges that Motorola may use or provide Customer with access to software, tools, data, and other materials, including designs, utilities, models, methodologies, systems, and specifications, which Motorola has developed or licensed from third parties (including any corrections, bug fixes, enhancements, updates, modifications, adaptations, translations, de-compilations, disassemblies, or derivative works of the foregoing, whether made by Motorola or another party) (collectively, "**Motorola Materials**"). The Products and Services, Motorola Data, Third-Party Data, and Documentation, are considered Motorola Materials. Except when Motorola has expressly transferred title or other interest to Customer by way of an Addendum or Ordering Document, the Motorola Materials are the property of Motorola or its licensors, and Motorola or its licensors retain all right, title and interest in and to

the Motorola Materials (including, all rights in patents, copyrights, trademarks, trade names, trade secrets, know-how, other intellectual property and proprietary rights, and all associated goodwill and moral rights). For clarity, this Agreement does not grant to Customer any shared development rights in or to any Motorola Materials or other intellectual property, and Customer agrees to execute any documents and take any other actions reasonably requested by Motorola to effectuate the foregoing. Motorola and its licensors reserve all rights not expressly granted to Customer, and no rights, other than those expressly granted herein, are granted to Customer by implication, estoppel or otherwise. Customer will not modify, disassemble, reverse engineer, derive source code or create derivative works from, merge with other software, distribute, sublicense, sell, or export the Products and Services or other Motorola Materials, or permit any third party to do so.

**10.3. Ownership of Customer Data.** Customer retains all right, title and interest, including intellectual property rights, if any, in and to Customer Data. Motorola acquires no rights to Customer Data except those rights granted under this Agreement including the right to Process and use the Customer Data as set forth in **Section 10.4 – Processing Customer Data** below and in other applicable Addenda. The Parties agree that with regard to the Processing of personal information which may be part of Customer Data, Customer is the controller and Motorola is the processor, and may engage sub-processors pursuant to **Section 10.4.3 – Sub-processors**.

**10.4. Processing Customer Data.**

10.4.1. Motorola Use of Customer Data. To the extent permitted by law, Customer grants Motorola and its subcontractors a right to use Customer Data and a royalty-free, worldwide, non-exclusive license to use Customer Data (including to process, host, cache, store, reproduce, copy, modify, combine, analyze, create derivative works from such Customer Data and to communicate, transmit, and distribute such Customer Data to third parties engaged by Motorola) to (a) perform Services and provide Products under the Agreement, (b) analyze the Customer Data to operate, maintain, manage, and improve Motorola Products and Services, and (c) create new products and services. Customer agrees that this Agreement, along with the Documentation, are Customer's complete and final documented instructions to Motorola for the processing of Customer Data. Any additional or alternate instructions must be agreed to according to the Change Order process. Customer represents and warrants to Motorola that Customer's instructions, including appointment of Motorola as a processor or sub-processor, have been authorized by the relevant controller.

10.4.2. Collection, Creation, Use of Customer Data. Customer further represents and warrants that the Customer Data, Customer's collection, creation, and use of the Customer Data (including in connection with Motorola's Products and Services), and Motorola's use of such Customer Data in accordance with the Agreement, will not violate any laws or applicable privacy notices or infringe any third-party rights (including intellectual property and privacy rights). Customer also represents and warrants that the Customer Data will be accurate and complete, and that Customer has obtained all required consents, provided all necessary notices, and met any other applicable legal requirements with respect to collection and use (including Motorola's and its subcontractors' use) of the Customer Data as described in the Agreement.

10.4.3. Sub-processors. Customer agrees that Motorola may engage sub-processors who in turn may engage additional sub-processors to Process personal data in

accordance with this Agreement. When engaging sub-processors, Motorola will enter into agreements with the sub-processors to bind them to data processing obligations to the extent required by law.

**10.5. Data Retention and Deletion.** Except for anonymized Customer Data, as described above, or as otherwise provided under the Agreement, Motorola will delete all Customer Data following termination or expiration of this MCA or the applicable Addendum or Ordering Document, with such deletion to occur no later than ninety (90) days following the applicable date of termination or expiration, unless otherwise required to comply with applicable law. Any requests for the exportation or download of Customer Data must be made by Customer to Motorola in writing before expiration or termination, subject to **Section 13.9 – Notices**. Motorola will have no obligation to retain such Customer Data beyond expiration or termination unless the Customer has purchased extended storage from Motorola through a mutually executed Ordering Document.

**10.6. Service Use Data.** Customer understands and agrees that Motorola may collect and use Service Use Data for its own purposes, including the uses described below. Motorola may use Service Use Data to (a) operate, maintain, manage, and improve existing and create new products and services, (b) test products and services, (c) to aggregate Service Use Data and combine it with that of other users, and (d) to use anonymized or aggregated data for marketing, research or other business purposes. Service Use Data may be disclosed to third parties. It is Customer's responsibility to notify Authorized Users of Motorola's collection and use of Service Use Data and to obtain any required consents, provide all necessary notices, and meet any other applicable legal requirements with respect to such collection and use, and Customer represents and warrants to Motorola that it has complied and will continue to comply with this Section.

**10.7. Third-Party Data and Motorola Data.** Motorola Data and Third-Party Data may be available to Customer through the Products and Services. Customer and its Authorized Users may use Motorola Data and Third-Party Data as permitted by Motorola and the applicable Third-Party Data provider, as described in the applicable Addendum. Unless expressly permitted in the applicable Addendum, Customer will not, and will ensure its Authorized Users will not: (a) use the Motorola Data or Third-Party Data for any purpose other than Customer's internal business purposes; (b) disclose the data to third parties; (c) "white label" such data or otherwise misrepresent its source or ownership, or resell, distribute, sublicense, or commercially exploit the data in any manner; (d) use such data in violation of applicable laws; (e) remove, obscure, alter, or falsify any marks or proprietary rights notices indicating the source, origin, or ownership of the data; or (f) modify such data or combine it with Customer Data or other data or use the data to build databases. Additional restrictions may be set forth in the applicable Addendum. Any rights granted to Customer or Authorized Users with respect to Motorola Data or Third-Party Data will immediately terminate upon termination or expiration of the applicable Addendum, Ordering Document, or this MCA. Further, Motorola or the applicable Third-Party Data provider may suspend, change, or terminate Customer's or any Authorized User's access to Motorola Data or Third-Party Data if Motorola or such Third-Party Data provider believes Customer's or the Authorized User's use of the data violates the Agreement, applicable law or Motorola's agreement with the applicable Third-Party Data provider. Upon termination of Customer's rights to use any Motorola Data or Third-Party Data, Customer and all Authorized Users will immediately discontinue use of such data, delete all copies of such data, and certify such deletion to Motorola. Notwithstanding any provision of the Agreement to the contrary, Motorola will have no liability for Third-Party Data or Motorola Data available through the Products and Services. Motorola and its Third-Party Data providers reserve all rights in and to

Motorola Data and Third-Party Data not expressly granted in an Addendum or Ordering Document.

**10.8. Feedback.** Any Feedback provided by Customer is entirely voluntary, and will not create any confidentiality obligation for Motorola, even if designated as confidential by Customer. Motorola may use, reproduce, license, and otherwise distribute and exploit the Feedback without any obligation or payment to Customer or Authorized Users and Customer represents and warrants that it has obtained all necessary rights and consents to grant Motorola the foregoing rights.

**10.9. Improvements: Products and Services.** The Parties agree that, notwithstanding any provision of this MCA or the Agreement to the contrary, all fixes, modifications and improvements to the Services or Products conceived of or made by or on behalf of Motorola that are based either in whole or in part on the Feedback, Customer Data, or Service Use Data (or otherwise) are the exclusive property of Motorola and all right, title and interest in and to such fixes, modifications or improvements will vest solely in Motorola. Customer agrees to execute any written documents necessary to assign any intellectual property or other rights it may have in such fixes, modifications or improvements to Motorola.

## **11. Force Majeure; Delays Caused by Customer.**

**11.1. Force Majeure.** Except for Customer's payment obligations hereunder, neither Party will be responsible for nonperformance or delayed performance due to events outside of its reasonable control. If performance will be significantly delayed, the affected Party will provide notice to the other Party, and the Parties will agree (in writing) upon a reasonable extension to any applicable performance schedule.

**11.2. Delays Caused by Customer.** Motorola's performance of the Products and Services will be excused for delays caused by Customer or its Authorized Users or subcontractors, or by failure of any assumptions set forth in this Agreement (including in any Addendum or Ordering Document). In the event of a delay under this **Section 11.2 – Delays Caused by Customer**, (a) Customer will continue to pay the Fees as required hereunder, (b) the Parties will agree (in writing) upon a reasonable extension to any applicable performance schedule, and (c) Customer will compensate Motorola for its out-of-pocket costs incurred due to the delay (including those incurred by Motorola's affiliates, vendors, and subcontractors).

**12. Disputes.** The Parties will use the following procedure to resolve any disputes relating to or arising out of this Agreement (each, a "**Dispute**"):

**12.1. Governing Law.** All matters relating to or arising out of the Agreement are governed by the laws of the State of Illinois, unless Customer is the United States Government (or an agency thereof), in which case all matters relating to or arising out of the Agreement will be governed by the laws of the State in which the Products and Services are provided. The terms of the U.N. Convention on Contracts for the International Sale of Goods and the Uniform Computer Information Transactions Act will not apply.

**12.2. Negotiation; Mediation.** Either Party may initiate dispute resolution procedures by sending a notice of Dispute ("**Notice of Dispute**") to the other Party. The Parties will attempt to resolve the Dispute promptly through good faith negotiations, including timely escalation of the Dispute to executives who have authority to settle the Dispute (and who are at a higher level of management than the persons with direct responsibility for the matter). If a Dispute is not resolved through negotiation, either Party may initiate mediation by sending a notice of mediation ("**Notice of Mediation**") to the other Party. The Parties will choose an independent

mediator within thirty (30) days of such Notice of Mediation. Neither Party may unreasonably withhold consent to the selection of a mediator, but if the Parties are unable to agree upon a mediator, either Party may request that the American Arbitration Association nominate a mediator. Each Party will bear its own costs of mediation, but the Parties will share the cost of the mediator equally. Each Party will participate in the mediation in good faith and will be represented at the mediation by a business executive with authority to settle the Dispute. All in person meetings under this **Section 12.2 – Negotiation; Mediation** will take place in Chicago, Illinois, and all communication relating to the Dispute resolution will be maintained in strict confidence by the Parties. Notwithstanding the foregoing, any Dispute arising from or relating to Motorola's intellectual property rights will not be subject to negotiation or mediation in accordance with this Section, but instead will be decided by a court of competent jurisdiction, in accordance with **Section 12.3 – Litigation, Venue, Jurisdiction** below.

**12.3. Litigation, Venue, Jurisdiction.** If the Dispute has not been resolved by mediation within sixty (60) days from the Notice of Mediation, either Party may submit the Dispute exclusively to a court in Cook County, Illinois. Each Party expressly consents to the exclusive jurisdiction of such courts for resolution of any Dispute and to enforce the outcome of any mediation.

### **13. General.**

**13.1. Compliance with Laws.** Each Party will comply with applicable laws in connection with the performance of its obligations under this Agreement, including that Customer will ensure its and its Authorized Users' use of the Products and Services complies with law (including privacy laws), and Customer will obtain any FCC and other licenses or authorizations (including licenses or authorizations required by foreign regulatory bodies) required for its and its Authorized Users' use of the Products and Services. Motorola may, at its discretion, cease providing or otherwise modify Products and Services (or any terms related thereto in an Addendum or Ordering Document), in order to comply with any changes in applicable law.

**13.2. Audit; Monitoring.** Motorola will have the right to monitor and audit use of the Products, which may also include access by Motorola to Customer Data and Service Use Data. Customer will provide notice of such monitoring to its Authorized Users and obtain any required consents, including individual end users, and will cooperate with Motorola in any monitoring or audit. Customer will maintain during the Term, and for two (2) years thereafter, accurate records relating to any software licenses granted under this Agreement to verify compliance with this Agreement. Motorola or a third party ("**Auditor**") may inspect Customer's and, as applicable, Authorized Users' premises, books, and records. Motorola will pay expenses and costs of the Auditor, unless Customer is found to be in violation of the terms of the Agreement, in which case Customer will be responsible for such expenses and costs.

**13.3. Assignment and Subcontracting.** Neither Party may assign or otherwise transfer this Agreement without the prior written approval of the other Party. Motorola may assign or otherwise transfer this Agreement or any of its rights or obligations under this Agreement without consent (a) for financing purposes, (b) in connection with a merger, acquisition or sale of all or substantially all of its assets, (c) as part of a corporate reorganization, or (d) to a subsidiary corporation. Subject to the foregoing, this Agreement will be binding upon the Parties and their respective successors and assigns.

**13.4. Waiver.** A delay or omission by either Party to exercise any right under this Agreement will not be construed to be a waiver of such right. A waiver by either Party of any of the obligations to be performed by the other, or any breach thereof, will not be construed to be a waiver of any succeeding breach or of any other obligation. All waivers must be in writing and signed by the Party waiving its rights.

**13.5. Severability.** If any provision of the Agreement is found by a court of competent jurisdiction to be invalid, illegal, or otherwise unenforceable, such provision will be deemed to be modified to reflect as nearly as possible the original intentions of the Parties in accordance with applicable law. The remaining provisions of this Agreement will not be affected, and each such provision will be valid and enforceable to the full extent permitted by applicable law.

**13.6. Independent Contractors.** Each Party will perform its duties under this Agreement as an independent contractor. The Parties and their personnel will not be considered to be employees or agents of the other Party. Nothing in this Agreement will be interpreted as granting either Party the right or authority to make commitments of any kind for the other. This Agreement will not constitute, create, or be interpreted as a joint venture, partnership, or formal business organization of any kind.

**13.7. Third-Party Beneficiaries.** The Agreement is entered into solely between, and may be enforced only by, the Parties. Each Party intends that the Agreement will not benefit, or create any right or cause of action in or on behalf of, any entity other than the Parties. Notwithstanding the foregoing, a licensor or supplier of third-party software included in the software Products will be a direct and intended third-party beneficiary of this Agreement.

**13.8. Interpretation.** The section headings in this Agreement are included only for convenience. The words “including” and “include” will be deemed to be followed by the phrase “without limitation”. This Agreement will be fairly interpreted in accordance with its terms and conditions and not for or against either Party.

**13.9. Notices.** Notices required under this Agreement to be given by one Party to the other must be in writing and either personally delivered or sent to the address provided by the other Party by certified mail, return receipt requested and postage prepaid (or by a recognized courier service, such as FedEx, UPS, or DHL), and will be effective upon receipt.

**13.10. Cumulative Remedies.** Except as specifically stated in this Agreement, all remedies provided for in this Agreement will be cumulative and in addition to, and not in lieu of, any other remedies available to either Party at law, in equity, by contract, or otherwise. Except as specifically stated in this Agreement, the election by a Party of any remedy provided for in this Agreement or otherwise available to such Party will not preclude such Party from pursuing any other remedies available to such Party at law, in equity, by contract, or otherwise.

**13.11. Survival.** The following provisions will survive the expiration or termination of this Agreement for any reason: **Section 2.4 – Customer Obligations; Section 3.4 – Effect of Termination or Expiration; Section 4 – Payment and Invoicing; Section 6.5 – Warranty Disclaimer; Section 7.3 – Customer Indemnity; Section 8 – Limitation of Liability; Section 9 – Confidentiality; Section 10 – Proprietary Rights; Data; Feedback; Section 11 – Force Majeure; Delays Caused by Customer; Section 12 – Disputes; and Section 13 – General.**

**13.12. Entire Agreement.** This Agreement, including all Addenda and Ordering Documents, constitutes the entire agreement of the Parties regarding the subject matter hereto, and supersedes all previous agreements, proposals, and understandings, whether written or oral, relating to this subject matter. This Agreement may be executed in multiple counterparts, and will have the same legal force and effect as if the Parties had executed it as a single document. The Parties may sign in writing or by electronic signature. An electronic signature, facsimile copy, or computer image of a signature, will be treated, and will have the same effect as an original signature, and will have the same effect, as an original signed copy of this document. This Agreement may be amended or modified only by a written instrument signed by authorized representatives of both Parties. The preprinted terms and conditions found on any Customer

purchase order, acknowledgment, or other form will not be considered an amendment or modification or part of this Agreement, even if a representative of each Party signs such document.

The Parties hereby enter into this MCA as of the Effective Date.

## Communications Systems Addendum

This Communications Systems Addendum (this “**CSA**”) is entered into between Motorola Solutions, Inc., with offices at 500 W. Monroe Street, Suite 4400, Chicago, IL 60661 (“**Motorola**”) and the entity set forth in the signature block below or in the MCA (“**Customer**”), and will be subject to, and governed by, the terms of the Motorola Solutions Customer Agreement entered into between the Parties, effective as of [REDACTED] (the “**MCA**”), and the applicable Addenda. Capitalized terms used in this CSA, but not defined herein, will have the meanings set forth in the MCA or the applicable Addenda.

**1. Addendum.** This CSA governs Customer’s purchase of certain Motorola radio Products, including Communications Systems, and will form part of the Parties’ Agreement. A “**Communications System**” is a solution that includes at least one radio Product, whether devices, software, or infrastructure, and requires Integration Services to deploy such radio Product at a Customer Site or onto any Customer-Provided Equipment or Equipment provided to Customer. In addition to the MCA, other Addenda may be applicable to the Communications System or other software Products, including the Equipment Purchase and Software License Addendum (“**EPSLA**”), with respect to Licensed Software and Equipment, and the Subscription Software Addendum (“**SSA**”), with respect to Subscription Software, as further described below. This CSA will control with respect to conflicting or ambiguous terms in the MCA or any other applicable Addendum, but only as applicable to the Communications System or other software Products purchased under this CSA and not with respect to other Products and Services.

### **2. Communications Systems; Applicable Terms and Conditions.**

**2.1. Communications System.** If Customer purchases a Communications System, then, unless the Ordering Document(s) specify that any software is being purchased on a subscription basis (i.e., as Subscription Software), such Equipment and Licensed Software installed at Customer Sites, including on devices sold to Customer by Motorola or on Customer-Provided Equipment, are subject to the EPSLA. Communications Systems described in this Section qualify for the System Warranty as described in **Section 5.2 – Communications System Warranty** (the “**System Warranty**”). In connection with a Communications System, Customer may also purchase additional Subscription Software that integrates with its Communications System (e.g., Critical Connect) (each, an “**Add-On Subscription**”). Any Add-On Subscription will be subject to the terms and conditions of the SSA and excluded from the System Warranty.

### **2.2. Services.**

**2.2.1.** Any Integration Services or Maintenance and Support Services purchased in connection with, or included as a part of, a Communications System are subject to the MCA, and as described in the applicable Ordering Document.

**2.2.2.** During the Warranty Period, in addition to warranty services, Motorola will provide Maintenance and Support Services for the Equipment and support for the Motorola Licensed Software pursuant to the applicable maintenance and support Ordering Document. Support for the Motorola Licensed Software will be in accordance with Motorola’s established Software Support Policy (“**SwSP**”). Copies of the SwSP can be found at [https://www.motorolasolutions.com/content/dam/msi/secure/services/software\\_policy.pdf](https://www.motorolasolutions.com/content/dam/msi/secure/services/software_policy.pdf) and will be sent by mail, email or fax to Customer upon written request. If Customer wishes to purchase (a) additional Maintenance and Support Services during the Warranty Period; or (b) continue or expand maintenance, software support, installation, and/or Motorola’s Lifecycle Management Services (“**LMS**”) after the Warranty Period,

Motorola will provide the description of and pricing for such services in a separate proposal document and such terms will be agreed upon in an Ordering Document. Unless otherwise agreed by the Parties in writing, the terms and conditions in this Agreement applicable to maintenance, support, installation, and/or LMS, will be included in the Maintenance and Support Addendum, LMS Addendum, the applicable Ordering Documents, and the proposal (if applicable). These collective terms will govern the provision of such Services.

**2.2.3.** To obtain any additional Services, Customer will issue a purchase order referring to this Agreement and the separate proposal document. Omission of reference to this Agreement in Customer's purchase order will not affect the applicability of this Agreement. Motorola's proposal may include a cover page entitled "Service Agreement" or "Installation Agreement", as applicable, and other attachments. These cover pages and other attachments are incorporated into this Agreement by this reference.

### **3. Communications System Acceptance.**

**3.1. Acceptance.** Any Communications System described in an Ordering Document hereunder (including the Products, Integration Services, and all other components thereof) will be deemed completed upon successful completion of the acceptance procedures ("**Acceptance Tests**") set forth in the Acceptance Test Plan attached as **Exhibit B-4 – Acceptance Test Plan** hereto ("**System Acceptance**"). Motorola will notify Customer at least ten (10) days before the Communications System testing commences. Upon System Acceptance, the Parties will memorialize this event by promptly executing a certificate documenting such System Acceptance as set forth in **Exhibit C**. If the Acceptance Test Plan includes separate tests for individual sub-Systems or phases of the Communications System, acceptance of the individual sub-System or phase will occur upon the successful completion of the Acceptance Tests for the sub-Communications System or phase, and the Parties will promptly execute an acceptance certificate for the sub-Communications System or phase. If Customer believes the Communications System has failed the completed Acceptance Tests, Customer will provide to Motorola a written notice that includes the specific details of the failure. If Customer does not provide to Motorola a failure notice within thirty (30) days after completion of the Acceptance Tests, System Acceptance will be deemed to have occurred as of the completion of the Acceptance Tests. Minor omissions or variances in the Communications System that do not materially impair the operation of the Communications System as a whole will not postpone System Acceptance or sub-Communications System acceptance, but will be corrected according to a mutually agreed punch list schedule. This Section applies to Products purchased as part of a Communications System notwithstanding the delivery provisions of the Addendum applicable to such Products, such as the SSA or EPSLA, and this Section will control over such other delivery provisions to the extent of a conflict.

**3.2. Beneficial Use.** Customer acknowledges that Motorola's ability to perform its implementation and testing responsibilities may be impeded if Customer begins using the Communications System before System Acceptance. Therefore, Customer will not commence using the system before System Acceptance without Motorola's prior written authorization, which will not be unreasonably withheld. Motorola is not responsible for Communications System performance deficiencies that occur prior to System Acceptance or use of the Communications System is otherwise authorized in writing by Motorola. Upon such date that Customer begins using the Communications System, Customer assumes responsibility for the use and operation of the Communications System.

**4. Payment.** Customer will pay invoices for the Products and Services covered by this CSA in accordance with the invoice payment terms set forth in the MCA. Additional payment terms are set forth hereto in **Exhibit A – Payment**.

## 5. **Warranty.**

**5.1. Radio Products Warranty.** The warranties applicable to Motorola-manufactured Equipment set forth in **Section 6 – Representations and Warranties; Liabilities** of the EPSLA shall be applicable to all radio Equipment purchased hereunder whether or not such Equipment was manufactured by Motorola.

**5.2. Communications System Warranty.** Subject to the disclaimers in the MCA and any other applicable Addenda, Motorola represents and warrants that, on the date of System Acceptance, (a) such Communications System will perform in accordance with the descriptions in the applicable Ordering Documents in all material respects, and (b) if Customer has purchased any Equipment or Motorola Licensed Software (but, for clarity, excluding Subscription Software) as part of such on-Communications System, the warranty period applicable to such Equipment and Motorola Licensed Software will continue for a period of one (1) year commencing upon System Acceptance (the “**Warranty Period**”) instead of commencing upon delivery of the Products in accordance with the terms and conditions set forth in **Section 6 – Representations and Warranties; Liabilities** of the EPSLA. The warranties set forth in the applicable Addenda are not otherwise modified by this CSA.

**6. Additional Equipment or Software with a Communications System.** Following the date of System Acceptance, Customer may order additional Equipment or Software that is intended for use with the Communications System for an additional three (3) years, if it is then available. Each purchase order must refer to the Agreement, and must specify the pricing and delivery terms.

**7. Broadband Enabled Devices.** The terms set forth in this **Section 7 – Broadband Enabled Devices** apply to broadband-enabled devices.

**7.1. Subscription Services.** Customer’s purchase of any broadband-enabled radio devices, such as ApXNext radios, includes certain Subscription Software all of which are subject to the SSA. Customer’s purchase of any such broadband enable devices may include an initial or trial subscription to the Subscription Software included with purchase of the device; following expiration of such initial or trial term, Customer must purchase a subscription for continued use of such Subscription Software.

**7.2. Flow-Down Terms.** Additional license terms apply to third-party broadband services purchased in connection with a broadband enable Communications System, which are available online at: [https://www.motorolasolutions.com/en\\_us/about/legal/motorola-solutions-customer-terms/flow-down-terms.html](https://www.motorolasolutions.com/en_us/about/legal/motorola-solutions-customer-terms/flow-down-terms.html) Customer will comply, and ensure its Authorized Users comply, with all such additional license terms.

**8. Critical Connect.** The terms set forth in this **Section 8 – Critical Connect** apply to Motorola’s Critical Connect Product. Motorola’s Critical Connect Product is Subscription Software, and any purchase of such Product will be subject to the SSA.

**8.1. Term.** Notwithstanding the SSA, the Initial Subscription Period of the Critical Connect service shall be for a period of three (3) years from the date of delivery. Renewal Subscription Years shall be for subsequent three (3) year periods rather than twelve (12) month periods as set forth in the **Section 4 – Term** of the SSA, with such renewals to automatically occur unless one party notifies the other Party of its intent not to renew at least thirty (30) days before the conclusion of the then-current Subscription Term.

**8.2. Cancellation Fees.** If Customer terminates the Critical Connect subscription prior to the end of the then-current Subscription Term, Customer will be obligated to pay a cancellation fee

of fifty percent (50%) of the remaining three (3) year Initial Subscription Period or Renewal Subscription Year at list price.

**8.3. Service Tiers.** Customer can upgrade the Critical Connect Subscription Software to higher tiers or downgrade to a lower tier. Additionally, Customer can stack multiple tiers together (additional setup fees may be required if upgrading to higher capacity levels). When Customer performs a tier upgrade or downgrade, the Subscription Term will be reset and a new three (3) year Initial Subscription Period will commence.

**8.4. Port Restrictions.** The Motorola on-premise gateway utilizes an ISSI connection and port. This connection is to be used only by the Motorola on-premise gateway in accordance with this service. Use of this ISSI connection and port with any other non-approved gateway is strictly prohibited.

**9. Transport Connectivity Services.** Certain Communications Systems may include one or more transport connectivity services as specified in the Ordering Document. In additions to the terms of this CSA, transport connectivity services shall also be governed by the terms of Motorola's standard Transport Connectivity Addendum.

**10. Attachments.** In the case of any Communications System sale, the Exhibits listed below will be attached hereto and incorporated into and made a part of this CSA:

- Exhibit A "Payment"
- Exhibit B Technical and Implementation Documents
  - B-1 "System Description" dated \_\_\_\_\_
  - B-2 "Pricing Summary & Equipment List" dated \_\_\_\_\_
  - B-3 "Implementation Statement of Work" dated \_\_\_\_\_
  - B-4 "Acceptance Test Plan" or "ATP" dated \_\_\_\_\_
  - B-5 "Performance Schedule" dated \_\_\_\_\_
- Exhibit C "System Acceptance Certificate"

**11. Survival.** The following provisions will survive the expiration or termination of this CSA for any reason: **Section 1 – Addendum; Section 2 – Communications Systems; Applicable Terms and Conditions; Section 7 – Broadband Services; Section 8 – Critical Connect; Section 11– Survival.**

## Equipment Purchase and Software License Addendum

This Equipment Purchase and Software License Addendum (this “**EPSLA**”) is entered into between Motorola Solutions, Inc., with offices at 500 W. Monroe Street, Suite 4400, Chicago, IL 60661 (“**Motorola**”) and the entity set forth in the signature block below or in the MCA (“**Customer**”), and will be subject to, and governed by, the terms of the Motorola Solutions Customer Agreement entered into between the Parties, effective as of [REDACTED] (the “**MCA**”). Capitalized terms used in this EPSLA, but not defined herein, will have the meanings set forth in the MCA.

**1. Addendum.** This EPSLA governs Customer’s purchase of Equipment and license of Licensed Software (and, if set forth in an Ordering Document, related Services) from Motorola, and will form part of the Parties’ Agreement.

### **2. Delivery of Equipment and Licensed Software.**

**2.1. Delivery and Risk of Loss.** Motorola will provide to Customer the Products (and, if applicable, related Services) set forth in an Ordering Document, in accordance with the terms of the Agreement. Motorola will, using commercially reasonable practices, pack the ordered Equipment and ship such Equipment to the Customer address set forth in the applicable Ordering Document or otherwise provided by Customer in writing, using a carrier selected by Motorola. Notwithstanding the foregoing, delivery of Equipment (and any incorporated Licensed Software) will occur, and title and risk of loss for the Equipment will pass to Customer, upon shipment by Motorola in accordance with Ex Works, Motorola’s premises (Incoterms 2020). Customer will pay all shipping costs, taxes, and other charges applicable to the shipment and import or export of the Products and Services, as applicable, and Customer will be responsible for reporting the Products for personal property tax purposes. Delivery of Licensed Software for installation on Equipment or Customer-Provided Equipment will occur upon the earlier of (a) electronic delivery of the Licensed Software by Motorola, and (b) the date Motorola otherwise makes the Licensed Software available for download by Customer. If agreed upon in an Ordering Document, Motorola will also provide Services related to such Products.

**2.2. Delays.** Any shipping dates set forth in an Ordering Document are approximate, and while Motorola will make reasonable efforts to ship Products by any such estimated shipping date, Motorola will not be liable for any delay or related damages to Customer. Time for delivery will not be of the essence, and delays will not constitute grounds for cancellation, penalties, termination, or a refund.

**2.3. Beta Services.** If Motorola makes any beta version of a software application (“**Beta Service**”) available to Customer, Customer may choose to use such Beta Service at its own discretion, provided, however, that Customer will use the Beta Service solely for purposes of Customer’s evaluation of such Beta Service, and for no other purpose. Customer acknowledges and agrees that all Beta Services are offered “as-is” and without any representations or warranties or other commitments or protections from Motorola. Motorola will determine the duration of the evaluation period for any Beta Service, in its sole discretion, and Motorola may discontinue any Beta Service at any time. Customer acknowledges that Beta Services, by their nature, have not been fully tested and may contain defects or deficiencies.

### **3. Licensed Software License and Restrictions.**

**3.1. Licensed Software License.** Subject to Customer’s and its Authorized Users’ compliance with the Agreement (including payment terms), Motorola hereby grants Customer and its Authorized Users a limited, non-transferable, non-sublicenseable, and non-exclusive license to

use the Licensed Software identified in an Ordering Document, in object code form only, and the associated Documentation, solely in connection with the Equipment provided by Motorola or authorized Customer-Provided Equipment (as applicable, the “**Designated Products**”) and solely for Customer’s internal business purposes. Unless otherwise stated in an Addendum or the Ordering Document, the foregoing license grant will be limited to the number of licenses set forth in the applicable Ordering Document and will continue for the life of the applicable Designated Product. Except as otherwise permitted in an applicable Addendum or Ordering Document, Customer may install, access, and use Licensed Software only in Customer’s owned or controlled facilities, including any authorized mobile sites; provided, however, that Authorized Users using authorized mobile or handheld devices may also log into and access the Licensed Software remotely from any location.

**3.2. Subscription License Model.** If the Parties mutually agree that any Licensed Software purchased under this EPSLA will be replaced with or upgraded to Subscription Software, then upon such time which the Parties execute the applicable Ordering Document, the licenses granted under this EPSLA will automatically terminate, and such Subscription Software will be governed by the terms of the applicable Addendum under this Agreement.

**3.3. Customer Restrictions.** Customers and Authorized Users will comply with the applicable Documentation in connection with their use of the Products. Customer will not and will not allow others, including the Authorized Users, to: (a) make the Licensed Software available for use by unauthorized third parties, including via a commercial rental or sharing arrangement; (b) reverse engineer, disassemble, or reprogram the Licensed Software or any portion thereof to a human-readable form; (c) modify, create derivative works of, or merge the Licensed Software with other software or equipment; (d) copy, reproduce, distribute, lend, lease, or transfer the Licensed Software or Documentation for or to any third party without the prior express written permission of Motorola; (e) take any action that would cause the Licensed Software or Documentation to be placed in the public domain; (f) use the Licensed Software to compete with Motorola; or (g) remove, alter, or obscure, any copyright or other notice.

**3.4. Copies.** Customer may make one (1) copy of the Licensed Software solely for archival, back-up, or disaster recovery purposes during the term of the applicable Licensed Software license. Customer may make as many copies of the Documentation reasonably required for the internal use of the Licensed Software during such Licensed Software’s license term. Unless otherwise authorized by Motorola in writing, Customer will not, and will not enable or allow any third party to: (a) install a licensed copy of the Licensed Software on more than one (1) unit of a Designated Product; or (b) copy onto or transfer Licensed Software installed in a unit of a Designated Product onto another device. Customer may temporarily transfer Licensed Software installed on a Designated Product to another device if the Designated Product is inoperable or malfunctioning, if Customer provides written notice to Motorola of the temporary transfer and identifies the device on which the Licensed is transferred. Temporary transfer of the Licensed Software to another device must be discontinued when the original Designated Product is returned to operation and the Licensed Software must be removed from the other device. Customer must provide prompt written notice to Motorola at the time temporary transfer is discontinued.

**3.5. Resale of Equipment.** Equipment contains embedded Licensed Software. If Customer desires to sell its used Equipment to a third party, Customer must first receive prior written authorization from Motorola and obtain written acceptance of the applicable Licensed Software license terms, including the obligation to pay relevant license fees, from such third party.

#### 4. Term.

**4.1. Term.** The term of this EPSLA (the “**EPSLA Term**”) will commence upon either (a) the Effective Date of the MCA, if this EPSLA is attached to the MCA as of such Effective Date, or (b) the EPSLA Date set forth on the signature page below, if this EPSLA is executed after the MCA Effective Date, and will continue until the later of (i) three (3) years after the first order for Products is placed via an Ordering Document, or (ii) the expiration of all applicable warranty periods (as set forth in **Section 6.1 – Motorola Warranties** below) under this EPSLA, unless this EPSLA or the Agreement is earlier terminated in accordance with the terms of the Agreement.

**4.2. Termination.** Notwithstanding the termination provisions of the MCA, Motorola may terminate this EPSLA (and any Ordering Documents hereunder) immediately upon notice to Customer if Customer breaches **Section 3 – Licensed Software License and Restrictions** of this EPSLA, or any other provision related to Licensed Software license scope or restrictions set forth in an Ordering Document, EULA, or other applicable Addendum. For clarity, upon termination or expiration of the EPSLA Term, all Motorola obligations under this EPSLA (including with respect to Equipment and Licensed Software delivered hereunder) will terminate. If Customer desires to purchase additional Services in connection with such Equipment or Licensed Software, Customer may enter into a separate Addendum with Motorola, governing such Services. Customer acknowledges that Motorola made a considerable investment of resources in the development, marketing, and distribution of the Licensed Software and Documentation, and that Customer’s breach of the Agreement will result in irreparable harm to Motorola for which monetary damages would be inadequate. If Licensee breaches this Agreement, in addition to termination, Motorola will be entitled to all available remedies at law or in equity, including immediate injunctive relief and repossession of all non-embedded Licensed Software and associated Documentation.

**4.3. Equipment as a Service.** In the event that Customer purchases any Equipment at a price below the MSRP for such Equipment in connection Customer entering into a fixed- or minimum required-term agreement for Subscription Software, and Customer or Motorola terminates the Agreement, this EPSLA, or other applicable Addendum (such as the Addendum governing the purchase of such Subscription Software) prior to the expiration of such fixed- or minimum required-term, then Motorola will have the right to invoice Customer for, and Customer will pay, the amount of the discount to the MSRP for the Equipment or such other amount set forth in the applicable Addendum or Ordering Document. This Section will not limit any other remedies Motorola may have with respect to an early termination.

**5. Payment.** Customer will pay invoices for the Products and Services provided under this EPSLA in accordance with the invoice payment terms set forth in the MCA. Generally, invoices are issued after shipment of Equipment or upon Motorola’s delivery of Licensed Software (in accordance with **Section 2.1 – Delivery and Risk of Loss**), as applicable, but if a specific invoicing or payment schedule is set forth in the applicable Ordering Document, EULA or other Addendum, such schedule will control with respect to the applicable Products and Services referenced therein. Motorola will have the right to suspend future deliveries of Products and Services if Customer fails to make any payments when due.

#### 6. Representations and Warranties; Liability.

**6.1. Motorola Warranties.** Subject to the disclaimers and exclusions set forth in the MCA and this EPSLA, (a) for a period of one (1) year commencing upon the delivery of Motorola-manufactured Equipment under **Section 2.1 – Delivery and Risk of Loss**, Motorola represents and warrants that such Motorola-manufactured Equipment, under normal use, will be free from

material defects in materials and workmanship; (b) to the extent permitted by the providers of third-party software or hardware included in the Products and Services, Motorola will pass through to Customer any warranties provided by such third parties, which warranties will apply for the period defined by the applicable third party; and (c) for a period of ninety (90) days commencing upon the delivery of Motorola-owned Licensed Software under **Section 2.1 – Delivery and Risk of Loss**, Motorola represents and warrants that such Licensed Software, when used in accordance with the Documentation and the Agreement, will be free from reproducible defects that prevent operation of features critical to the primary functionality or successful operation of the Motorola-developed Licensed Software (as determined by Motorola). The warranty set forth in subsection (c) will be referred to as the “**Motorola Licensed Software Warranty**”. As Customer’s sole and exclusive remedy for any breach of the Motorola Licensed Software Warranty, Motorola will use commercially reasonable efforts to remedy the material defect in the applicable Licensed Software; provided, however, that if Motorola does not remedy such material defect within a reasonable time, then at Motorola’s sole option, Motorola will either replace the defective Licensed Software with functionally-equivalent software, provide substitute software to Customer, or terminate the applicable software license and refund any paid license fees to Customer on a pro-rata basis. For clarity, the Motorola Licensed Software Warranty applies only to the most current version of the Licensed Software issued by Motorola, and issuance of updated versions of any Licensed Software does not result in a renewal or extension of the Motorola Licensed Software Warranty beyond the ninety (90) day warranty period.

**6.2. ADDITIONAL EXCLUSIONS.** IN ADDITION TO THE EXCLUSIONS FROM DAMAGES SET FORTH IN THE MCA, AND NOTWITHSTANDING ANY PROVISION OF THE AGREEMENT TO THE CONTRARY, MOTOROLA WILL HAVE NO LIABILITY FOR (A) DEFECTS IN OR DAMAGE TO PRODUCTS RESULTING FROM USE OTHER THAN IN THE NORMAL AUTHORIZED MANNER, OR FROM ACCIDENT, LIQUIDS, OR NEGLIGENCE; (B) TESTING, MAINTENANCE, REPAIR, INSTALLATION, OR MODIFICATION BY PARTIES OTHER THAN MOTOROLA; (C) CUSTOMER’S OR ANY AUTHORIZED USER’S FAILURE TO COMPLY WITH INDUSTRY AND OSHA OR OTHER LEGAL STANDARDS; (D) DAMAGE TO RADIO ANTENNAS, UNLESS CAUSED BY DEFECTS IN MATERIAL OR WORKMANSHIP; (E) EQUIPMENT WITH NO SERIAL NUMBER; (F) BATTERIES OR CONSUMABLES; (G) FREIGHT COSTS FOR SHIPMENT TO REPAIR DEPOTS; (H) COSMETIC DAMAGE THAT DOES NOT AFFECT OPERATION; (I) NORMAL WEAR AND TEAR; (J) ISSUES OR OBSOLESCENCE OF LICENSED SOFTWARE DUE TO CHANGES IN CUSTOMER OR AUTHORIZED USER REQUIREMENTS, EQUIPMENT, OR SYSTEMS; (K) TRACKING AND LOCATION-BASED SERVICES; OR (L) BETA SERVICES.

**6.3. Voluntary Remedies.** Motorola is not obligated to remedy, repair, replace, or refund the purchase price for the disclaimed or excluded issues in the MCA or **Section 6.2 – Additional Exclusions** above, but if Motorola agrees to provide Services to help resolve such issues, Customer will reimburse Motorola for its reasonable time and expenses, including by paying Motorola any Fees set forth in an Ordering Document for such Services, if applicable.

**7. Copyright Notices.** The existence of a copyright notice on any Licensed Software will not be construed as an admission or presumption of publication of the Licensed Software or public disclosure of any trade secrets associated with the Licensed Software.

**8. Survival.** The following provisions will survive the expiration or termination of this EPSLA for any reason: **Section 3 – Licensed Software License and Restrictions; Section 4 – Term; Section 5 – Payment; Section 6.2 – Additional Exclusions; Section 8 – Survival.**

## **MAINTENANCE, SUPPORT ADDENDUM**

This Maintenance, Support Addendum (this “**MSA**”) is entered into between Motorola Solutions, Inc., with office at 500 W. Monroe, suite 4400, Chicago, IL 60661 (“**Motorola**”) and the entity set forth in the signature block below or in the MCA (“**Customer**”) and will be subject to, and governed by, the terms of the Motorola Solutions Customer Agreement entered into between the Parties, effective as of [REDACTED] the (“**MCA**”). Capitalized terms used in this MSLMA, but not defined herein, will have the meanings set forth in the MCA.

**1. Addendum.** This MSA governs Customer’s purchase of Maintenance and Support (as defined below) services (and, if set forth in an Ordering Document, related Services) from Motorola and will form part of the Parties’ Agreement. In addition to the MCA, other Addenda may be applicable to the MSA, including the Equipment Purchase and Software License Addendum (“**EPSLA**”), with respect to Licensed Software and Equipment, and the Communications System Addendum (“**CSA**”) as further described below. This MSA will control with respect to conflicting or ambiguous terms in the MCA or any other applicable Addendum, but only as applicable to the Maintenance and Support services purchased under this MSA and not with respect to other Products and Services.

### **2. Scope**

Motorola will provide break/fix maintenance, technical support, or other Services (such as software integration Services) (“Maintenance and Support Services”) as further described in the applicable Ordering Documents.

### **3. Maintenance and Support services**

3.1 Purchase Order Acceptance. Purchase orders for additional, continued, or expanded maintenance and software support, during the Warranty Period or after the Warranty Period, become binding only when accepted in writing by Motorola.

3.2 Start Date. The “Start Date” for Maintenance and Support Services will be indicated in the applicable Ordering Documents.

3.3 Auto Renewal. Unless the applicable Ordering Documents specifically state a termination date or one Party notifies the other in writing of its intention to discontinue the Maintenance and Support Services, this Agreement will renew for an additional one (1) year term on every anniversary of the Start Date. At the anniversary date, Motorola may adjust the price of the Services to reflect the renewal rate.

3.4 Termination. Written notice of intent to terminate must be provided thirty (30) days or more prior to the anniversary date. If Motorola provides Services after the termination or expiration of this MSA, the terms and conditions in effect at the time of termination or expiration will apply to those Services and Customer agrees to pay for those services on a time and materials basis at Motorola’s then effective hourly rates.

This provision survives the expiration or termination of the Agreement and applies notwithstanding any contrary provision.

3.5 Equipment Definition. For maintenance and support services, Equipment will be defined to mean the hardware specified in the applicable Ordering Documents.

3.6 Additional Hardware. If Customer purchases additional hardware from Motorola that becomes part of the Communications System, the additional hardware may be added to this MSA and will be billed at the applicable rates after the warranty period for that additional equipment expires. Such hardware will be included in the definition of Equipment.

3.7 Maintenance. Equipment will be maintained at levels set forth in the manufacturer's product manuals and routine procedures that are prescribed by Motorola will be followed. Motorola parts or parts of equal quality will be used for Equipment maintenance.

3.8 Equipment Condition. All Equipment must be in good working order on the Start Date or when additional equipment is added to the MSA. Upon reasonable request by Motorola, Customer will provide a complete serial and model number list of the Equipment. Customer must promptly notify Motorola in writing when any Equipment is lost, damaged, stolen or taken out of service. Customer's obligation to pay maintenance and support fees for this Equipment will terminate at the end of the month in which Motorola receives the written notice. If Equipment cannot, in Motorola's reasonable opinion, be properly or economically maintained for any reason, Motorola may modify the scope of Services related to that Equipment; remove that Equipment from the Agreement; or increase the price to maintain that Equipment.

3.9 Equipment Failure. Customer must promptly notify Motorola of any Equipment failure. Motorola will respond to Customer's notification in a manner consistent with the level of Service purchased as indicated in this MSA and applicable Ordering Documents.

3.10 Intrinsically Safe. Customer must specifically identify any Equipment that is labeled intrinsically safe for use in hazardous environments.

3.11 Excluded Services.

a) Service excludes the repair or replacement of Equipment that has become defective or damaged from use in other than the normal, customary, intended, and authorized manner; use not in compliance with applicable industry standards; excessive wear and tear; or accident, liquids, power surges, neglect, acts of God or other force majeure events.

b) Unless specifically included in this MSA or applicable Ordering Documents, Service excludes items that are consumed in the normal operation of the Equipment, such as batteries or magnetic tapes.; upgrading or reprogramming Equipment; accessories, belt clips, battery chargers, custom or special products, modified units, or software; and repair or

maintenance of any transmission line, antenna, microwave equipment, tower or tower lighting, duplexer, combiner, or multicoupler. Motorola has no obligations for any transmission medium, such as telephone lines, computer networks, the internet or the worldwide web, or for Equipment malfunction caused by the transmission medium.

3. 12 Time And Place. Service will be provided at the location specified in this MSA and/or the applicable Ordering Documents. When Motorola performs maintenance, support, or installation at Customer's location, Customer will provide Motorola, at no charge, a non-hazardous work environment with adequate shelter, heat, light, and power and with full and free access to the Equipment. Waivers of liability from Motorola or its subcontractors will not be imposed as a site access requirement. Customer will provide all information pertaining to the hardware and software elements of any system with which the Equipment is interfacing so that Motorola may perform its Services. Unless otherwise stated in this MSA or applicable Ordering Documents, the hours of Service will be 8:30 a.m. to 4:30 p.m., local time, excluding weekends and holidays. Unless otherwise stated in this MSA or applicable Ordering Documents, the price for the Services exclude any charges or expenses associated with helicopter or other unusual access requirements; if these charges or expenses are reasonably incurred by Motorola in rendering the Services, Customer agrees to reimburse Motorola for those charges and expenses.

3. 13 Customer Contact. Customer will provide Motorola with designated points of contact (list of names and phone numbers) that will be available twenty-four (24) hours per day, seven (7) days per week, and an escalation procedure to enable Customer's personnel to maintain contact, as needed, with Motorola.

3.14 If Customer terminates this Maintenance and Support service and contractual commitment before the end of the [REDACTED] year term, for any reason other than Motorola's default, then the Customer will pay to Motorola a termination fee equal to the discount applied to the last three years of service payments related to the [REDACTED] year commitment.

#### **4. Payment**

4.1 Unless alternative payment terms are stated in the applicable Ordering Documents, Motorola will invoice Customer in advance for each payment period. All other charges will be billed monthly, and the Customer must pay each invoice in U.S. dollars within thirty (30) days of the invoice date. Customer will reimburse Motorola for all property taxes, sales and use taxes, excise taxes, and other taxes or assessments that are levied as a result of Services rendered under this MSA (except income, profit, and franchise taxes of Motorola) by any governmental entity.

4.2 INFLATION ADJUSTMENT. For multi-year agreements, at the end of the first year of the Agreement and each year thereafter, a CPI percentage change calculation shall be performed using the U.S. Department of Labor, Consumer Price Index, "All Items," Unadjusted Urban Areas (CPI-U). Should the annual inflation rate increase greater than 3% during the previous year, Motorola shall have the right to increase all future

maintenance prices by the CPI increase amount exceeding 3%. "All Items," not seasonally adjusted shall be used as the measure of CPI for this price adjustment. The adjustment calculation will be based upon the CPI for the most recent twelve (12) month increment beginning from the most current month available as posted by the U.S. Department of Labor (<http://www.bls.gov>) immediately preceding the new maintenance year. For purposes of illustration, if in Year 5 the CPI reported an increase of 8%, Motorola may increase the Year 6 price by 5% (8%-3% base).

*[see attached]*

## Subscription Software Addendum

This Subscription Software Addendum (this “**SSA**”) is entered into between Motorola Solutions, Inc., with offices at 500 W. Monroe Street, Suite 4400, Chicago, IL 60661 (“**Motorola**”) and the entity set forth in the signature block below or in the MCA (“**Customer**”), and will be subject to, and governed by, the terms of the Motorola Solutions Customer Agreement entered into between the Parties, effective as of [REDACTED] (the “**MCA**”). Capitalized terms used in this SSA, but not defined herein, will have the meanings set forth in the MCA.

**1. Addendum.** This SSA governs Customer’s purchase of Subscription Software (and, if set forth in an Ordering Document, related Services) from Motorola, and will form part of the Parties’ Agreement. Additional Subscription Software-specific Addenda or other terms and conditions may apply to certain Subscription Software, where such terms are provided or presented to Customer.

### **2. Delivery of Subscription Software.**

**2.1. Delivery.** During the applicable Subscription Term (as defined below), Motorola will provide to Customer the Subscription Software set forth in an Ordering Document, in accordance with the terms of the Agreement. Motorola will provide Customer advance notice (which may be provided electronically) of any planned downtime. Delivery will occur upon Customer’s receipt of credentials required for access to the Subscription Software or upon Motorola otherwise providing access to the Subscription Software. If agreed upon in an Ordering Document, Motorola will also provide Services related to such Subscription Software.

**2.2. Modifications.** In addition to other rights to modify the Products and Services set forth in the MCA, Motorola may modify the Subscription Software, any associated recurring Services and any related systems so long as their functionality (as described in the applicable Ordering Document) is not materially degraded. Documentation for the Subscription Software may be updated to reflect such modifications. For clarity, new features or enhancements that are added to any Subscription Software may be subject to additional Fees.

**2.3. User Credentials.** If applicable, Motorola will provide Customer with administrative user credentials for the Subscription Software, and Customer will ensure such administrative user credentials are accessed and used only by Customer’s employees with training on their proper use. Customer will protect, and will cause its Authorized Users to protect, the confidentiality and security of all user credentials, including any administrative user credentials, and maintain user credential validity, including by updating passwords. Customer will be liable for any use of the Subscription Software through such user credential (including through any administrative user credentials), including any changes made to the Subscription Software or issues or user impact arising therefrom. To the extent Motorola provides Services to Customer in order to help resolve issues resulting from changes made to the Subscription Software through user credentials, including through any administrative user credentials, or issues otherwise created by Authorized Users, such Services will be billed to Customer on a time and materials basis, and Customer will pay all invoices in accordance with the payment terms of the MCA.

**2.4. Beta Services.** If Motorola makes any beta version of a software application (“**Beta Service**”) available to Customer, Customer may choose to use such Beta Service at its own discretion, provided, however, that Customer will use the Beta Service solely for purposes of Customer’s evaluation of such Beta Service, and for no other purpose. Customer acknowledges and agrees that all Beta Services are offered “as-is” and without any representations or warranties or other commitments or protections from Motorola. Motorola will determine the duration of the evaluation period for any Beta Service, in its sole discretion, and Motorola may discontinue any

Beta Service at any time. Customer acknowledges that Beta Services, by their nature, have not been fully tested and may contain defects or deficiencies.

### **3. Subscription Software License and Restrictions.**

**3.1. Subscription Software License.** Subject to Customer's and its Authorized Users' compliance with the Agreement, including payment terms, Motorola hereby grants Customer and its Authorized Users a limited, non-transferable, non-sublicenseable, and non-exclusive license to use the Subscription Software identified in an Ordering Document, and the associated Documentation, solely for Customer's internal business purposes. The foregoing license grant will be limited to use in the territory and to the number of licenses set forth in an Ordering Document (if applicable), and will continue for the applicable Subscription Term. Customer may access, and use the Subscription Software only in Customer's owned or controlled facilities, including any authorized mobile sites; provided, however, that Authorized Users using authorized mobile or handheld devices may also log into and access the Subscription Software remotely from any location. No custom development work will be performed under this Addendum.

**3.2. End User Licenses.** Motorola may use, engage, resell, or otherwise interface with third-party software, hardware or services providers (such as, for example, third-party end point detection and response providers) and other sub-processors, who in turn may engage additional sub-processors to process personal data and other Customer Data. Customer agrees that such third-party software or services providers, sub-processors or their respective sub-processors may process and use personal and other Customer Data in accordance with and subject to their own respective licenses or terms and in accordance with applicable law. Customer authorizes and will provide and obtain all required notices and consents, if any, and comply with other applicable legal requirements, if any, with respect to such collection and use of personal data and other Customer Data by Motorola, and its subcontractors, sub-processors and/or third-party software, hardware or services providers. Notwithstanding any provision to the contrary, to the extent the use or performance of certain Services is governed by any separate license, data requirement, EULA, privacy statement, or other applicable agreement, including terms governing third-party software, hardware or services, including open source software, Customer will comply, and ensure its Authorized Users comply, with any such agreements or terms, which shall govern any such Services.

**3.3. Customer Restrictions.** Customers and Authorized Users will comply with the applicable Documentation and the copyright laws of the United States and all other relevant jurisdictions (including the copyright laws where Customer uses the Subscription Software) in connection with their use of the Subscription Software. Customer will not, and will not allow others including the Authorized Users, to make the Subscription Software available for use by unauthorized third parties, including via a commercial rental or sharing arrangement; reverse engineer, disassemble, or reprogram software used to provide the Subscription Software or any portion thereof to a human-readable form; modify, create derivative works of, or merge the Subscription Software or software used to provide the Subscription Software with other software; copy, reproduce, distribute, lend, or lease the Subscription Software or Documentation for or to any third party; take any action that would cause the Subscription Software, software used to provide the Subscription Software, or Documentation to be placed in the public domain; use the Subscription Software to compete with Motorola; remove, alter, or obscure, any copyright or other notice; share user credentials (including among Authorized Users); use the Subscription Software to store or transmit malicious code; or attempt to gain unauthorized access to the Subscription Software or its related systems or networks.

### **4. Term.**

**4.1. Subscription Terms.** The duration of Customer's subscription to the first Subscription Software and any associated recurring Services ordered under this SSA (or the first Subscription Software or recurring Service, if multiple are ordered at once) will commence upon delivery of such Subscription Software (and recurring Services, if applicable) and will continue for a twelve (12) month period or such longer period identified in an Ordering Document (the "**Initial Subscription Period**"). Following the Initial Subscription Period, Customer's subscription to the Subscription Software and any recurring Services will automatically renew for additional twelve (12) month periods (each, a "**Renewal Subscription Year**"), unless either Party notifies the other Party of its intent not to renew at least thirty (30) days before the conclusion of the then-current Subscription Term. (The Initial Subscription Period and each Renewal Subscription Year will each be referred to herein as a "**Subscription Term**".) Motorola may increase Fees prior to any Renewal Subscription Year. In such case, Motorola will notify Customer of such proposed increase no later than thirty (30) days prior to commencement of such Renewal Subscription Year. Unless otherwise specified in the applicable Ordering Document, if Customer orders any additional Subscription Software or recurring Services under this SSA during an in-process Subscription Term, the subscription for each new Subscription Software or recurring Service will (a) commence upon delivery of such Subscription Software or recurring Service, and continue until the conclusion of Customer's then-current Subscription Term (a "**Partial Subscription Year**"), and (b) automatically renew for Renewal Subscription Years thereafter, unless either Party notifies the other Party of its intent not to renew at least thirty (30) days before the conclusion of the then-current Subscription Term. Thus, unless otherwise specified in the applicable Ordering Document, the Subscription Terms for all Subscription Software and recurring Services hereunder will be synchronized.

**4.2. Term.** The term of this SSA (the "**SSA Term**") will commence upon either (a) the Effective Date of the MCA, if this SSA is attached to the MCA as of such Effective Date, or (b) the SSA Date set forth on the signature page below, if this SSA is executed after the MCA Effective Date, and will continue until the expiration or termination of all Subscription Terms under this SSA, unless this SSA or the Agreement is earlier terminated in accordance with the terms of the Agreement.

**4.3. Termination.** Notwithstanding the termination provisions of the MCA, Motorola may terminate this SSA (or any Addendum or Ordering Documents hereunder), or suspend delivery of Subscription Software or Services, immediately upon notice to Customer if (a) Customer breaches **Section 3 – Subscription Software License and Restrictions** of this SSA, or any other provision related to Subscription Software license scope or restrictions set forth in an Addendum or Ordering Document, or (b) it determines that Customer's use of the Subscription Software poses, or may pose, a security or other risk or adverse impact to any Subscription Software, Motorola, Motorola's systems, or any third party (including other Motorola customers). Customer acknowledges that Motorola made a considerable investment of resources in the development, marketing, and distribution of the Subscription Software and Documentation, and that Customer's breach of the Agreement will result in irreparable harm to Motorola for which monetary damages would be inadequate. If Customer breaches this Agreement, in addition to termination, Motorola will be entitled to all available remedies at law or in equity (including immediate injunctive relief).

**4.4. Wind Down of Subscription Software.** In addition to the termination rights in the MCA, Motorola may terminate any Ordering Document and Subscription Term, in whole or in part, in the event Motorola plans to cease offering the applicable Subscription Software or Service to customers.

## **5. Payment.**

**5.1. Payment.** Unless otherwise provided in an Ordering Document (and notwithstanding the provisions of the MCA), Customer will prepay an annual subscription Fee set forth in an Ordering Document for each Subscription Software and associated recurring Service, before the

commencement of each Subscription Term. For any Partial Subscription Year, the applicable annual subscription Fee will be prorated based on the number of months in the Partial Subscription Year. The annual subscription Fee for Subscription Software and associated recurring Services may include certain one-time Fees, such as start-up fees, license fees, or other fees set forth in an Ordering Document. Motorola will have the right to suspend the Subscription Software and any recurring Services if Customer fails to make any payments when due. The parties acknowledge that pricing for Cyber Services is dependent on the full term or subscription periods specified in any such Ordering Document. Motorola will have the right to suspend the Services if Customer fails to make any payments when due

**5.2. License True-Up.** Motorola will have the right to conduct an audit of total user licenses credentialed by Customer for any Subscription Software during a Subscription Term, and Customer will cooperate with such audit. If Motorola determines that Customer's usage of the Subscription Software during the applicable Subscription Term exceeded the total number of licenses purchased by Customer, Motorola may invoice Customer for the additional licenses used by Customer, pro-rated for each additional license from the date such license was activated, and Customer will pay such invoice in accordance with the payment terms in the MCA.

**5.3. Customer Data.** For avoidance of doubt, for Cyber Services so long as not specifically identifying the Customer, "Customer Data," as defined in the MCA, shall not include, and Motorola shall be free to use, share and leverage security threat intelligence and mitigation data generally, including without limitation, third party threat vectors and IP addresses, file hash information, domain names, malware signatures and information, information obtained from third party sources, indicators of compromise, and tactics, techniques, and procedures used, learned or developed in the course of providing Services

**5.4. Future Regulatory Requirements.** The Parties acknowledge and agree that Cyber Service is an evolving technological area and therefore, laws and regulations regarding Services may change. Changes to existing Services required to achieve regulatory compliance may be available for an additional fee. Any required changes may also impact the price for Services.

## **6. Liability.**

**6.1. ADDITIONAL EXCLUSIONS.** IN ADDITION TO THE EXCLUSIONS FROM DAMAGES SET FORTH IN THE MCA, AND NOTWITHSTANDING ANY PROVISION OF THE AGREEMENT TO THE CONTRARY, MOTOROLA WILL HAVE NO LIABILITY FOR (A) INTERRUPTION OR FAILURE OF CONNECTIVITY, VULNERABILITIES, OR SECURITY EVENTS; (B) DISRUPTION OF OR DAMAGE TO CUSTOMER'S OR THIRD PARTIES' SYSTEMS, EQUIPMENT, OR DATA, INCLUDING DENIAL OF ACCESS TO USERS, OR SHUTDOWN OF SYSTEMS CAUSED BY INTRUSION DETECTION SOFTWARE OR HARDWARE; (C) AVAILABILITY OR ACCURACY OF ANY DATA AVAILABLE THROUGH THE SUBSCRIPTION SOFTWARE OR SERVICES, OR INTERPRETATION, USE, OR MISUSE THEREOF; (D) TRACKING AND LOCATION-BASED SERVICES; OR (E) BETA SERVICES.

**6.2. Direct Damages.** For avoidance of doubt, notwithstanding the limitation set out in Section 8.2 of the MCA, the direct damages limitation for Cyber services provided under this SSA and limited to the fees, or the portion of fees, relating only to the Cyber Security Services under this SSA, even if such Services are offered or bundled with other Motorola services.

**6.3. Voluntary Remedies.** Motorola is not obligated to remedy, repair, replace, or refund the purchase price for the disclaimed or excluded issues in the MCA or **Section 6.1 – Additional Exclusions** above, but if Motorola agrees to provide Services to help resolve such issues,

Customer will reimburse Motorola for its reasonable time and expenses, including by paying Motorola any Fees set forth in an Ordering Document for such Services, if applicable.

**7. Motorola as a Controller or Joint Controller.** In all instances where Motorola acts as a controller of data, it will comply with the applicable provisions of the Motorola Privacy Statement at [https://www.motorolasolutions.com/en\\_us/about/privacy-policy.html#privacystatement](https://www.motorolasolutions.com/en_us/about/privacy-policy.html#privacystatement), as may be updated from time to time. Motorola holds all Customer Contact Data as a controller and shall Process such Customer Contact Data in accordance with the Motorola Privacy Statement. In instances where Motorola is acting as a joint controller with Customer, the Parties will enter into a separate Addendum to the Agreement to allocate the respective roles as joint controllers.

**8. Survival.** The following provisions will survive the expiration or termination of this SSA for any reason: **Section 4 – Term; Section 5 – Payment; Section 6.1 – Additional Exclusions; Section 8 – Survival.**

# H-GAC

Houston-Galveston Area Council

P.O. Box 22777 · 3555 Timmons · Houston, Texas 77227-2777

---

Cooperative Agreement - Motorola Solutions, Inc. - Public Services -

## GENERAL PROVISIONS

This Agreement is made and entered into, by and between the Houston-Galveston Area Council hereinafter referred to as H-GAC having its principal place of business at 3555 Timmons Lane, Suite 120, Houston, Texas 77027 and Motorola Solutions, Inc., hereinafter referred to as the Contractor, having its principal place of business at 500 West Monroe Street, 44th Floor, Chicago, IL 60661.

WITNESSETH:

WHEREAS, H-GAC hereby engages the Contractor to perform certain services in accordance with the specifications of the Agreement; and

WHEREAS, the Contractor has agreed to perform such services in accordance with the specifications of the Agreement;

NOW, THEREFORE, H-GAC and the Contractor do hereby agree as follows:

### **ARTICLE 1: LEGAL AUTHORITY**

Both parties warrant and assure that each possesses adequate legal authority to enter into this Agreement. The governing body, where applicable, has authorized the signatory official(s) to enter into this Agreement and bind the respective parties to the terms of this Agreement and any subsequent amendments hereto.

### **ARTICLE 2: APPLICABLE LAWS**

The Contractor agrees to conduct all activities under this Agreement in accordance with all applicable rules, regulations, directives, standards, ordinances, and laws, in effect or promulgated during the term of this Agreement, including without limitation, workers' compensation laws, minimum and maximum salary and wage statutes and regulations, and licensing laws and regulations. When required, the Contractor shall furnish H-GAC with satisfactory proof of its compliance therewith.

### **ARTICLE 3: INDEPENDENT CONTRACTOR**

The execution of this Agreement and the rendering of services prescribed by this Agreement do not change the independent status of H-GAC or the Contractor. No provision of this Agreement or act of H-GAC in performance of the Agreement shall be construed as making the Contractor the agent, servant or employee of H-GAC, the State of Texas or the United States Government. Employees of the Contractor are subject to the exclusive control and supervision of the Contractor. The Contractor is solely responsible for employee related disputes and discrepancies, including employee payrolls and any claims arising therefrom.

### **ARTICLE 4: WHOLE AGREEMENT**

The General Provisions, Special Provisions, and Attachments, as provided herein, constitute the complete Agreement ("Agreement") between the parties hereto, and supersede any and all oral and written agreements between the parties relating to matters herein. Except as otherwise provided herein, this Agreement cannot be modified without written consent of the parties.

#### **ARTICLE 5: SCOPE OF SERVICES**

The services to be performed by the Contractor are outlined in an Attachment to this Agreement.

#### **ARTICLE 6: PERFORMANCE PERIOD**

This Agreement shall be performed during the period which begins Jul 01 2020 and ends Jun 30 2022. All services under this Agreement must be rendered within this performance period, unless directly specified under a written change or extension provisioned under Article 15, which shall be fully executed by both parties to this Agreement.

#### **ARTICLE 7: PAYMENT OR FUNDING**

Payment provisions under this Agreement are outlined in the Special Provisions.

#### **ARTICLE 8: REPORTING REQUIREMENTS**

If the Contractor fails to submit to H-GAC in a timely and satisfactory manner any report required by this Agreement, or otherwise fails to satisfactorily render performances hereunder, H-GAC may terminate this agreement with notice as identified in Article 16 of these General Provisions. H-GAC has final determination of the adequacy of performance and reporting by Contractor. Termination of this agreement for failure to perform may affect Contractor's ability to participate in future opportunities with H-GAC. The Contractor's failure to timely submit any report may also be considered cause for termination of this Agreement.

Any additional reporting requirements shall be set forth in the Special Provisions of this Agreement.

#### **ARTICLE 9: INSURANCE**

Contractor shall maintain insurance coverage for work performed or services rendered under this Agreement as outlined and defined in the attached Special Provisions.

#### **ARTICLE 10: SUBCONTRACTS and ASSIGNMENTS**

Except as may be set forth in the Special Provisions, the Contractor agrees not to subcontract, assign, transfer, convey, sublet or otherwise dispose of this Agreement or any right, title, obligation or interest it may have therein to any third party without prior written approval of H-GAC, which will not be unreasonably withheld. The Contractor acknowledges that H-GAC is not liable to any subcontractor or assignee of the Contractor. The Contractor shall ensure that the performance rendered under all subcontracts shall result in compliance with all the terms and provisions of this Agreement as if the performance rendered was rendered by the Contractor. Contractor shall give all required notices, and comply with all laws and regulations applicable to furnishing and performance of the work. Except where otherwise expressly required by applicable law or regulation, H-GAC shall not be responsible for monitoring Contractor's compliance, or that of Contractor's subcontractors, with any laws or regulations.

#### **ARTICLE 11: AUDIT**

Notwithstanding any other audit requirement, H-GAC reserves the right to conduct or cause to be conducted an independent audit of any transaction under this Agreement, such audit may be performed by the H-GAC local government audit staff, a certified public accountant firm, or other auditors designated by H-GAC and will be conducted in accordance with applicable professional standards and practices. The Contractor understands and agrees that the Contractor shall be liable to the H-GAC for any findings that result in monetary obligations to H-GAC. In no circumstances will Contractor be required to create or maintain documents not kept in the ordinary course of its business operations, nor will Contractor be required to disclose any information, including but not limited to product cost data, which it considers confidential or proprietary.

**ARTICLE 12: EXAMINATION OF RECORDS**

The Contractor shall maintain during the course of the work complete and accurate records of all of the Contractor's invoices and pertinent documentation of items which are chargeable to H-GAC under this Agreement. H-GAC, through its staff or designated public accounting firm, the State of Texas, and United States Government, shall have the right at any reasonable time to inspect, copy and audit those pertinent records on or off the premises by authorized representatives of its own or any public accounting firm selected by H- GAC. The right of access to records is not limited to the required retention period, but shall last as long as the records are retained. Failure to provide access to records may be cause for termination of the Agreement.

The Contractor further agrees that the examination of records outlined in this article shall be included in all subcontractor or third-party agreements.

**ARTICLE 13: RETENTION OF RECORDS**

The Contractor and its subcontractors shall maintain all records pertinent to this Agreement for a period of seven (7) years from the later of the date of acceptance of the final payment or until all audit findings have been resolved. If any litigation, claim, negotiation, audit or other action involving the records has been started before the expiration of the retention period, the records shall be retained until completion of the action and resolution of all issues which arise from it, or until the end of the seven (7) years, whichever is later, and until any outstanding litigation, audit, or claim has been fully resolved.

**ARTICLE 14: CHANGES AND AMENDMENTS**

- A. Any alterations, additions, or deletions to the terms of this Agreement, which are required by changes in federal or state law or by regulations, are automatically incorporated without written amendment hereto, and shall become effective on the date designated by such law or by regulation.
- B. To ensure the legal and effective performance of this Agreement, both parties agree that any amendment that affects the performance under this Agreement must be mutually agreed upon and that all such amendments must be in writing. After a period of no less than 30 days subsequent to written notice, unless sooner implementation is required by law, such amendments shall have the effect of qualifying the terms of this Agreement and shall be binding upon the parties as if written herein.

**ARTICLE 15: TERMINATION PROCEDURES**

The Contractor acknowledges that this Agreement may be terminated for Convenience or Default.

***A. Convenience***

H-GAC may terminate this Agreement at any time, in whole or in part, with or without cause, whenever H-GAC determines that for any reason such termination is in the best interest of H- GAC, by providing thirty (30) days written notice by certified mail to the Contractor. Upon receipt of notice of termination, all services hereunder of the Contractor and its employees and subcontractors shall cease to the extent specified in the notice of termination.

The Contractor may cancel or terminate this Agreement upon submission of thirty (30) days written notice, presented to H-GAC via certified mail. The Contractor may not give notice of cancellation after it has received notice of default from H-GAC.

***B. Default***

H-GAC may, by written notice of default to the Contractor, terminate the whole or any part of the Agreement, in any one of the following circumstances:

- (1) If the Contractor fails to perform the services herein specified within the time specified

herein or any extension thereof; or

- (2) If the Contractor fails to perform any of the other provisions of this Agreement for any reason whatsoever, or so fails to make progress or otherwise violates the Agreements that completion of services herein specified within the Agreement term is significantly endangered, and in either of these two instances does not cure such failure within a period of fifteen (15) days (or such longer period of time as may be authorized by H-GAC in writing) after receiving written notice by certified mail of default from H-GAC.

#### **ARTICLE 16: SEVERABILITY**

H-GAC and Contractor agree that should any provision of this Agreement be determined to be invalid or unenforceable, such determination shall not affect any other term of this Agreement, which shall continue in full force and effect.

#### **ARTICLE 17: FORCE MAJEURE**

To the extent that either party to this Agreement shall be wholly or partially prevented from the performance of any obligation or duty placed on such party by reason of or through strikes, stoppage of labor, riot, fire, flood, acts of war, insurrection, accident, order of any court, act of God, or specific cause reasonably beyond the party's control and not attributable to its neglect or nonfeasance, in such event, the time for the performance of such obligation or duty shall be suspended until such disability to perform is removed. The party affected by the Force Majeure will notify the other within fifteen (15) days. Determination of force majeure shall rest solely with H-GAC.

#### **ARTICLE 18: CONFLICT OF INTEREST**

No officer, member or employee of the Contractor or subcontractor, no member of the governing body of the Contractor, and no other public officials of the Contractor who exercise any functions or responsibilities in the review or Contractor approval of this Agreement, shall participate in any decision relating to this Agreement which affects his or her personal interest, or shall have any personal or pecuniary interest, direct or indirect, in this Agreement.

#### **ARTICLE 19: FEDERAL COMPLIANCE**

Contractor agrees to comply with all applicable federal statutes relating to nondiscrimination, labor standards, and environmental compliance. Additionally, for work to be performed under the Agreement or subcontract thereof, including procurement of materials or leases of equipment, Contractor shall notify each potential subcontractor or supplier of the Contractor's federal compliance obligations. These may include, but are not limited to: (a) Title VI of the Civil Rights Act of 1964 (P.L. 88-352) which prohibits discrimination on the basis of race, color or national origin; (b) Title IX of the Education Amendments of 1972, as amended (20 U.S.C. §§ 1681-1683, and 1685-1686), which prohibits discrimination on the basis of sex; (c) the Fair Labor Standards Act of 1938 (29 USC 676 et. seq.), (d) Section 504 of the Rehabilitation Act of 1973, as amended (29 U.S.C. § 794), which prohibits discrimination on the basis of handicaps and the Americans with Disabilities Act of 1990; (e) the Age Discrimination in Employment Act of 1967 (29 USC 621 et. seq.) and the Age Discrimination Act of 1974, as amended (42 U.S.C. §§ 6101-6107), which prohibits discrimination on the basis of age; (f) the Drug Abuse Office and Treatment Act of 1972 (P.L. 92-255), as amended, relating to nondiscrimination on the basis of drug abuse; (g) the Comprehensive Alcohol Abuse and Alcoholism Prevention, Treatment and Rehabilitation Act of 1970 (P.L. 91-616), as amended, relating to the nondiscrimination on the basis of alcohol abuse or alcoholism; (h) §§ 523 and 527 of the Public Health Service Act of 1912 (42 U.S.C. 290 dd-3 and 290 ee- 3), as amended, relating to confidentiality of alcohol and drug abuse patient records; (i) Title VIII of the Civil Rights Act of 1968 (42 U.S.C. § 3601 et seq.), as amended, relating to nondiscrimination in the sale, rental or financing of housing; (j) any other nondiscrimination provisions in any specific statute(s) applicable to any Federal funding for this Agreement; (k) the requirements of any other nondiscrimination statute(s) which may apply to this Agreement; (l)

applicable provisions of the Clean Air Act (42 U.S.C. §7401 et seq.), the Federal Water Pollution Control Act, as amended (33 U.S.C. §1251 et seq.), Section 508 of the Clean Water Act (33 U.S.C. 1368), Executive Order 11738, and the Environmental Protection Agency regulations at 40 CFR Part 15; (m) applicable provisions of the Davis • Bacon Act (40 U.S.C. 276a - 276a-7), the Copeland Act (40 U.S.C. 276c), and the Contract Work Hours and Safety Standards Act (40 U.S.C. 327-332), as set forth in Department of Labor Regulations at 20 CFR 5.5a; (n) the mandatory standards and policies relating to energy efficiency which are contained in the state energy conservation plan issued in compliance with the Energy Policy and Conservation Act (P.L. 94-163).

#### **ARTICLE 20: CRIMINAL PROVISIONS AND SANCTIONS**

The Contractor agrees to perform the Agreement in conformance with safeguards against fraud and abuse as set forth by the H-GAC, the State of Texas, and the acts and regulations of any related state or federal agency. The Contractor agrees to promptly notify H-GAC of any actual or suspected fraud, abuse, or other criminal activity through the filing of a written report within twenty-four (24) hours of knowledge thereof. Contractor shall notify H-GAC of any serious accident or incident requiring medical attention arising from its activities under this Agreement within twenty-four (24) hours of such occurrence. Theft or willful damage to property on loan to the Contractor from H-GAC, if any, shall be reported to local law enforcement agencies and H-GAC within two (2) hours of discovery of any such act.

The Contractor further agrees to cooperate fully with H-GAC, local law enforcement agencies, the State of Texas, the Federal Bureau of Investigation and any other duly authorized investigative unit, in carrying out a full investigation of all such incidents.

The Contractor shall notify H-GAC of the threat of lawsuit or of any actual suit filed against the Contractor pertaining to this Agreement or which would adversely affect the Contractor's ability to perform services under this Agreement.

#### **ARTICLE 21: INDEMNIFICATION AND RECOVERY**

H-GAC's liability under this Agreement, whether for breach of contract, warranty, negligence, strict liability, in tort or otherwise, is limited to its order processing charge. In no event will H-GAC be liable for any loss of use, loss of time, inconvenience, commercial loss, lost profits or savings or other incidental, special or consequential damages to the full extent such use may be disclaimed by law. Contractor agrees, to the extent permitted by law, to defend and hold harmless H-GAC, its board members, officers, agents, officials, employees and indemnities from any and all claims, costs, expenses (including reasonable attorney fees), actions, causes of action, judgements, and liens arising as a result of Contractor's negligent act or omission under this Agreement. Contractor shall notify H-GAC of the threat of lawsuit or of any actual suit filed against Contractor relating to this Agreement.

#### **ARTICLE 22: LIMITATION OF CONTRACTOR'S LIABILITY**

Except as specified in any separate writing between the Contractor and an END USER, Contractor's total liability under this Agreement, whether for breach of contract, warranty, negligence, strict liability, in tort or otherwise, but excluding its obligation to indemnify H-GAC, is limited to the price of the particular products/services sold hereunder, and Contractor agrees either to refund the purchase price or to repair or replace product(s) that are not as warranted. In no event will Contractor be liable for any loss of use, loss of time, inconvenience, commercial loss, loss of profits or savings or other incidental, special or consequential damages to the full extent such use may be disclaimed by law. Contractor understands and agrees that it shall be liable to repay and shall repay upon demand to END USER any amounts determined by H-GAC, its independent auditors, or any agency of State or Federal government to have been paid in violation of the terms of this Agreement.

**ARTICLE 23: TITLES NOT RESTRICTIVE**

The titles assigned to the various Articles of this Agreement are for convenience only. Titles shall not be considered restrictive of the subject matter of any Article, or part of this Agreement.

**ARTICLE 24: JOINT WORK PRODUCT**

This Agreement is the joint work product of H-GAC and the Contractor. This Agreement has been negotiated by H-GAC and the Contractor and their respective counsel and shall be fairly interpreted in accordance with its terms and, in the event of any ambiguities, no inferences shall be drawn against any party.

**ARTICLE 25: DISPUTES**

All disputes concerning questions of fact or of law arising under this Agreement, which are not addressed within the Whole Agreement as defined pursuant to Article 4 hereof, shall be decided by the Executive Director of H-GAC or his designee, who shall reduce his decision to writing and provide notice thereof to the Contractor. The decision of the Executive Director or his designee shall be final and conclusive unless, within thirty (30) days from the date of receipt of such notice, the Contractor requests a rehearing from the Executive Director of H-GAC. In connection with any rehearing under this Article, the Contractor shall be afforded an opportunity to be heard and offer evidence in support of its position. The decision of the Executive Director after any such rehearing shall be final and conclusive. The Contractor may, if it elects to do so, appeal the final and conclusive decision of the Executive Director to a court of competent jurisdiction. Pending final decision of a dispute hereunder, the Contractor shall proceed diligently with the performance of the Agreement and in accordance with H-GAC's final decision.

**ARTICLE 26: CHOICE OF LAW: VENUE**

This Agreement shall be governed by the laws of the State of Texas. Venue and jurisdiction of any suit or cause of action arising under or in connection with the Agreement shall lie exclusively in Harris County, Texas. Disputes between END USER and Contractor are to be resolved in accordance with the law and venue rules of the state of purchase. Contractor shall immediately notify H-GAC of such disputes.

**ARTICLE 27: ORDER OF PRIORITY**

In the case of any conflict between or within this Agreement, the following order of priority shall be utilized: 1) General Provisions, 2) Special Provisions, 3) Scope of Work, and, 4) Other Attachments.

**SIGNATURES:**

H-GAC and the Contractor have read, agreed, and executed the whole Agreement as of the date first written above, as accepted by:

## SPECIAL PROVISIONS

Incorporated by attachment, as part of the whole agreement, H-GAC and the Contractor do, hereby agree to the Special Provisions as follows:

### **ARTICLE 1: BIDS/PROPOSALS INCORPORATED**

In addition to the whole Agreement, the following documents listed in order of priority are incorporated into the Agreement by reference: Bid/Proposal Specifications and Contractor's Response to the Bid/Proposal.

### **ARTICLE 2: END USER AGREEMENTS ("EUA")**

**H-GAC** acknowledges that the **END USER** may choose to enter into an End User Agreement ("EUA") with the **Contractor** through this Agreement, and that the term of the EUA may exceed the term of the current **H-GAC** Agreement. **H-GAC's** acknowledgement is not an endorsement or approval of the End User Agreement's terms and conditions. **Contractor** agrees not to offer, agree to or accept from the **END USER**, any terms or conditions that conflict with those in **Contractor's** Agreement with **H-GAC**. Contractor affirms that termination of its Agreement with H-GAC for any reason shall not result in the termination of any underlying EUA, which shall in each instance, continue pursuant to the EUA's stated terms and duration. Pursuant to the terms of this Agreement, termination of this Agreement will disallow the **Contractor** from entering into any new EUA with **END USERS**. Applicable **H-GAC** order processing charges will be due and payable to **H-GAC** on any EUAs, surviving termination of this Agreement between **H-GAC** and **Contractor**.

### **ARTICLE 3: MOST FAVORED CUSTOMER CLAUSE**

If at any time during this Agreement, Contractor develops a regularly followed standard procedure of entering into agreements with other governmental customers within the State of Texas, and offers the same or substantially the same products/services offered to **H-GAC** on a basis that provides prices, warranties, benefits, and or terms more favorable than those provided to **H-GAC**, **Contractor** shall notify **H-GAC** within ten (10) business days thereafter, and this Agreement shall be deemed to be automatically retroactively amended, to the effective date of Contractor's most favorable past agreement with another entity. **Contractor** shall provide the same prices, warranties, benefits, or terms to **H-GAC** and its **END USER** as provided in its most favorable past agreement. H-GAC shall have the right and option at any time to decline to accept any such change, in which case the amendment shall be deemed null and void. If **Contractor** claims that a more favorable price, warranty, benefit, or term that was charged or offered to another entity during the term of this Agreement, does not constitute more favorable treatment, than **Contractor** shall, within ten (10) business days, notify **H-GAC** in writing, setting forth the detailed reasons **Contractor** believes the aforesaid offer is not in fact most favored treatment. **H-GAC**, after due consideration of Contractor's written explanation, may decline to accept such explanation and thereupon this Agreement between **H-GAC** and **Contractor** shall be automatically amended, effective retroactively, to the effective date of the most favored agreement, to provide the same prices, warranties, benefits, or terms to H-GAC and the **END USER**.

**EXCEPTION:** *This clause shall not be applicable to the sale of large communications systems (one*

*million dollars (\$1,000,000.00) and above). The term "Communication Systems" shall refer to a project that includes the sale of infrastructure hardware and/or software, user devices, and Contractor engineering and installation service. The contract for a "Communication System" will always have a Statement of Work and an Acceptance Test Plan. This clause shall also not be applicable to pre-existing contracts Contractor has in the State of Texas. The term "pre-existing" shall refer to contracts in existence as of the effective date of this Agreement.*

#### **ARTICLE 4: PARTY LIABILITY**

Contractor's total liability under this Agreement, whether for breach of contract, warranty, negligence, strict liability, in tort or otherwise, is limited to the price of the particular products/services sold hereunder. Contractor agrees either to refund the purchase price or to repair or replace product(s) that are not as warranted. Contractor accepts liability to repay, and shall repay upon demand to END USER, any amounts determined by H-GAC, its independent auditors, or any state or federal agency, to have been paid in violation of the terms of this Agreement.

#### **ARTICLE 5: GOVERNING LAW & VENUE**

Contractor and H-GAC agree that Contractor will make every reasonable effort to resolve disputes the **END USER** in accord with the law and venue rules of the state of purchase. **Contractor** shall immediately notify **H-GAC** of such disputes.

#### **ARTICLE 6: SALES AND ORDER PROCESSING CHARGE**

**Contractor** shall sell its products to **END USERS** based on the pricing and terms of this Agreement. **H-GAC** will invoice **Contractor** for the applicable order processing charge when H-GAC receives notification of an **END USER** order. **Contractor shall remit to H-GAC** the full amount of the applicable order processing charge, after delivery of any product or service and subsequent **END USER** acceptance. Payment of the Order Processing Charge shall be remitted from Contractor to H-GAC, within thirty (30) calendar days or ten (10) business days after receipt of an **END USER**'s payment, whichever comes first, notwithstanding Contractor's receipt of invoice. For sales made by **Contractor** based on this Agreement, including sales to entities without Interlocal Agreements, **Contractor** shall pay the applicable order processing charges to **H-GAC**. Further, **Contractor** agrees to encourage entities who are not members of H-GAC's Cooperative Purchasing Program to execute an **H-GAC** Interlocal Agreement. **H-GAC** reserves the right to take appropriate actions including, but not limited to, Agreement termination if **Contractor** fails to promptly remit the appropriate order processing charge to H-GAC. In no event shall **H-GAC** have any liability to **Contractor** for any goods or services an **END USER** procures from **Contractor**. At all times, **Contractor** shall remain liable to pay to **H-GAC** any order processing charges on any portion of the Agreement actually performed, and for which compensation was received by **Contractor**.

#### **ARTICLE 7: LIQUIDATED DAMAGES**

Any liquidated damage terms will be determined between Contractor and End User at the time End User's purchase order is placed.

#### **ARTICLE 8: INSURANCE**

Unless otherwise stipulated in Section B of the Bid/Proposal Specifications, **Contractor** must have the following insurance and coverage:

- a. **General liability** insurance with a Single Occurrence limit of at least \$1,000,000.00, and a General Aggregate limit of \$2,000,000.

**Product liability** insurance with a Single Occurrence limit of at least \$1,000,000.00, and a

General Aggregate limit of at least two times the Single Occurrence limit for all Products except Automotive Fire Apparatus. For Automotive Fire Apparatus, see Section B of the Bid/Proposal Specifications.

**Property Damage or Destruction** insurance is required for coverage of **End User** owned equipment while in **Contractor's** possession, custody or control. The minimum Single Occurrence limit is \$500,000.00 and the General Aggregate limit must be at least two times the Single Occurrence limit. This insurance may be carried in several ways, e.g. under an Inland Marine policy, as part of Automobile coverage, or under a Garage Keepers policy. In any event, this coverage must be specifically and clearly listed on insurance certificate(s) submitted to **H-GAC**.

- b. Insurance coverage shall be in effect for the length of any contract made pursuant to the Bid/Proposal, and for any extensions thereof, plus the number of days/months required to *deliver* any outstanding order after the close of the contract period.
- c. PDF Insurance Certificates must be furnished to **H-GAC** after contract execution and at policy renewal during term of contract, showing **Contractor** as the insured and showing coverage and limits for the insurances listed above.
- d. If any Product(s) or Service(s) will be provided by parties other than **Contractor**, all such parties are required to carry the insurance coverages specified herein, and if requested by **H-GAC**, a separate insurance certificate must be submitted for each such party.

#### **ARTICLE 9: PERFORMANCE AND PAYMENT BONDS FOR INDIVIDUAL ORDERS**

**H-GAC's** contractual requirements DO NOT include a Performance & Payment Bond (PPB); therefore, Contractor shall offer pricing that reflects this cost savings. **Contractor** shall remain prepared to offer a PPB to cover any order if so requested by the **END USER**. **Contractor** shall quote a price to **END USER** for provision of any requested PPB, and agrees to furnish the PPB within ten business (10) days of receipt of **END USER's** purchase order.

#### **ARTICLE 10: CHANGE OF STATUS**

**Contractor** shall immediately notify **H-GAC**, in writing, of **ANY** change in ownership, control, dealership/franchisee status, Motor Vehicle license status, or name. Contractor shall offer written guidance to advise H-GAC if this Agreement shall be affected in any way by such change. **H-GAC** shall have the right to determine whether or not such change is acceptable, and to determine what action shall be warranted, up to and including cancellation of Agreement.
