

# Technical Manager

---

TO: Board of Directors  
Mike Fletcher, Executive Director  
FROM: Nathan Hughes, Technical Manager  
SUBJECT: March 2024 Update

- CAD
  - Police and Fire users have started testing the new MDC (Mobile Data/Digital Computer) user interface. We are receiving good feedback from the testers and will hopefully start rolling out in the coming months.
- Website
  - The Columbia 911 website was migrated to the updated hosting platform. We are working with the vendor to fix any issues.
- Pest Control
  - We are reaching out to pest control companies for quotes to prevent small animals from crawling under our building.
- Vesta Phone System Upgrade
  - Day Wireless has started to remove the old Vesta hardware in the server room. This will free up an entire rack.
- Admin Phone System
  - Updated quotes were received.
